SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in Thousands, Except Per Share Data and Number of Shares)

1. Reporting Entity

San Miguel Global Power Holdings Corp. (the "Parent Company") was incorporated in the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) on January 23, 2008, and its primary purpose of business is to purchase, sell, assign, lease, develop, create security interest over, operate and dispose of all properties of every kind and description, including shares of stocks or other securities or obligations, created or issued by any corporation or other entity. The Parent Company has a perpetual corporate life in accordance with the Revised Corporation Code of the Philippines which took effect on February 23, 2019.

The accompanying interim consolidated financial statements comprise the financial statements of the Parent Company and its Subsidiaries (collectively referred to as the Group) and the Group's interests in associates and joint ventures.

The Parent Company is a wholly-owned subsidiary of San Miguel Corporation (SMC). The intermediate parent company of the Group is Top Frontier Investment Holdings, Inc. (Top Frontier), while the ultimate parent company is IZ Investment Holdings, Inc. SMC and Top Frontier are public companies under Section 17.2 of the Securities Regulation Code (SRC) and whose shares are listed on The Philippine Stock Exchange, Inc. (PSE).

The Parent Company's registered office address is located at No. 40 San Miguel Avenue, Wack-Wack Greenhills 1550, City of Mandaluyong, Second District, National Capital Region.

2. Basis of Preparation

The interim consolidated financial statements have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting,* and should be read in conjunction with the Group's last annual audited consolidated financial statements as at and for the year ended December 31, 2025. They do not include all the information required for a complete set of Philippine Financial Reporting Standards (PFRS) Accounting Standards financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual audited consolidated financial statements.

The interim consolidated financial statements were approved and authorized for issue in accordance with a resolution by the Board of Directors (BOD) on November 11, 2026.

Basis of Measurement

The interim consolidated financial statements of the Group have been prepared on a historical cost basis except for the following items which are measured on an alternative basis at each reporting date:

Items	Measurement Basis
Financial assets at fair value through profit or loss (FVPL)	Fair value
Financial assets at fair value through other comprehensive income (FVOCI)	Fair value
Defined benefits retirement asset (liability)	Fair value of the plan assets less the present value of the defined benefits retirement obligation

Functional and Presentation Currency

The interim consolidated financial statements are presented in Philippine Peso, which is the functional currency of the Parent Company. All financial information is rounded off to the nearest thousand (P000), except when otherwise indicated.

Basis of Consolidation

The interim consolidated financial statements include the financial statements of the Parent Company and its subsidiaries. The subsidiaries are incorporated in the Philippines and registered with the Philippine SEC. The major subsidiaries include the following:

	Percentage of Ownership	
	September 30, 2026	December 31, 2025
Power Generation		
Sual Power Inc. (SPI)	**100**	100
San Roque Hydropower Inc. (SRHI)	**100**	100

Retail and Other Power-related Services		
SMGP BESS Power Inc. (SMGP BESS)	**100**	100
SMGP Kabankalan Power Co. Ltd.	**100**	100
SMC Power Generation Corp.	**100**	100

A subsidiary is an entity controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

When the Group has less than majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including the contractual arrangement with the other vote holders of the investee, rights arising from other contractual arrangements and the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are included in the interim consolidated financial statements from the date when the Group obtains control and continue to be consolidated until the date when such control ceases.

If the Group loses control of a subsidiary, the Group, at the date when control is lost: (a) derecognizes the carrying amounts of assets and liabilities of the former subsidiary from the consolidated statement of financial position, (b) recognizes any investment retained in the former subsidiary at its remeasured fair value which shall be regarded as the fair value on initial recognition of a financial asset in accordance with PFRS 9, *Financial Instruments*, or the cost on initial recognition of an investment in associate or joint venture, if applicable, and (c) recognizes any resulting difference as a gain or loss associated with the loss of control attributable to the former controlling interest in the consolidated statement of income.

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company, using uniform accounting policies for like transactions and other events in similar circumstances. Intergroup balances and transactions, including intergroup unrealized profits and losses, are eliminated in preparing the interim consolidated financial statements.

Non-controlling interests represent the portion of profit or loss and net assets not attributable to the Parent Company and are presented in the consolidated statements of income, consolidated statements of comprehensive income and within equity in the consolidated statements of financial position, separately from the equity attributable to equity holders of the Parent Company.

Non-controlling interests mainly include the interests not held by the Parent Company in GP Renewable, SGLPC and MPGC as at September 30, 2026 and December 31, 2025 (see Note 12).

3. Material Accounting Policy Information

The principal accounting policies adopted in the preparation of the interim consolidated financial statements of the Group are consistent with those followed in the most recent annual audited consolidated financial statements, except for the changes in accounting policies as explained below. The following changes in accounting policies are also expected to be reflected in the Group's consolidated financial statements as at and for the year ending December 31, 2026.

The Philippine Financial and Sustainability Reporting Standards Council approved the adoption of a number of new and amendments to standards as part of Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Adoption of Amendments to Standards
The Group has adopted the following amendments to PFRS effective January 1, 2026 and accordingly, changed its accounting policies in the following areas:

- Disclosures about Uncertainties in the Financial Statements (Amendments to Illustrative Examples on PFRS 7, *Financial Instruments: Disclosures,* PFRS 18, *Presentation and Disclosure in Financial Statements,* PAS 1, *Presentation of Financial Statements,* PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors,* PAS 36, *Impairment of Assets* and PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*). The amendments provide illustrative examples demonstrating how entities can apply PFRS Accounting Standards when reporting the effects of uncertainties in their financial statements. The examples use climate-related scenarios as practical illustrations, but the underlying principles apply more broadly to all uncertainties.

The illustrative examples are not an integral part of the PFRS Accounting Standards and do not have an effective date or transition requirements. Entities are expected to consider these examples in applying the disclosure requirements of the relevant standards on a timely basis.

- Classification and Measurement of Financial Instruments (Amendments to PFRS 9 and PFRS 7). The amendments clarify that a financial liability is derecognized on the settlement date when the related obligation is discharged, cancelled or expires. The amendments also introduce an accounting policy option to derecognize financial liabilities settled through an electronic payment system before the settlement date, if certain specified conditions are met.

  The amendments also provide guidelines for assessing the contractual cash flow characteristics of financial assets that include environmental, social, and governance-linked features and other similar contingent features.

  Entities are required to disclose additional information about financial assets and financial liabilities with contingent features, and equity instruments classified FVOCI.

- Contracts Referencing Nature-dependent Electricity (Amendments to PFRS 9 and PFRS 7). The amendments clarify the application of the own-use exemption for contracts referencing electricity from nature-dependent renewable energy sources, amend the hedge accounting requirements to allow these contracts to be designated as hedging instruments if certain conditions are met, and introduce additional disclosure requirements on the impact of these contracts on the financial performance and future cash flow.

- Annual Improvements to PFRS Accounting Standards - Volume 11. This cycle of improvements contains amendments to five standards, of which the following amendments are relevant to the Group:

  - Gain or Loss on Derecognition (Amendments to PFRS 7). The amendments replaced the reference to ‘inputs that were not based on observable market data’ in the obsolete paragraph 27A of PFRS 7, with reference to ‘unobservable inputs’ in paragraphs 72-73 of PFRS 13, *Fair Value Measurement*.

  - Derecognition of Lease Liabilities and Transaction Price (Amendments to PFRS 9). The amendments:

    - added a cross-reference to clarify that when a lessee has determined that a lease liability has been extinguished in accordance with PFRS 9, the lessee applies the requirement that the difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, shall be recognized in statement of income; and

    - replaced the term 'their transaction price (as defined in PFRS 15, *Revenue from Contracts with Customers*)' with 'the amount determined by applying PFRS 15' because a receivable might be initially measured at an amount that differs from the transaction price recognized as revenue, for example, when you recognize full amount for consideration that’s unconditionally receivable but at the same time recognize expected refund liability with respect to retrospective rebates. Consequently, the definition of the transaction price has been deleted.

The adoption of the amendments to standards did not have a material effect on the interim consolidated financial statements.

New and Amendments to Standards Not Yet Adopted
A number of new and amendments to standards are effective for annual reporting periods beginning after January 1, 2026 and have not been applied in preparing the interim consolidated financial statements. Unless otherwise indicated, none of these is expected to have a significant effect on the interim consolidated financial statements.

The Group will adopt the following new and amendments to standards on the respective effective dates:

- PFRS 18 replaces PAS 1. The new standard introduces the following key requirements:

  - entities are required to classify all income and expenses into five categories in the statement of income: operating, investing, financing, income tax, and discontinued operations. Subtotals and totals are presented in the statement of income for operating profit or loss, profit or loss before financing and income taxes, and profit or loss;

  - management-defined performance measures (MPM) are disclosed in a single note to the financial statements; and

  - enhanced guidance is provided on how to group information in the financial statements.

  Consequential amendments to PAS 7, *Statement of Cash Flows*, require the use of the operating profit or loss subtotal as the starting point when presenting operating cash flows under the indirect method and eliminate the options for classifying interest and dividend cash flows.

  PFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, with retrospective application required. Early adoption is permitted.

The Group continues to assess the impact of the above new and amendments to standards effective subsequent to 2026 on the interim consolidated financial statements in the period of initial application. Additional disclosures required by these amendments will be included in the consolidated financial statements when these amendments are adopted.

4. Use of Judgments, Estimates and Assumptions

In preparing these interim consolidated financial statements, management has exercised judgments, made accounting estimates and used assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, and income and expenses. Actual results may differ from these estimates.

The significant judgments made by management in applying the Group's accounting policies and key sources of estimation uncertainty were the same as those applied in the audited consolidated financial statements as at and for the year ended December 31, 2025.

5. Segment Information

Operating Segments

The Group's operations are segmented into three businesses: a) power generation, b) retail and other power-related services and c) others consistent with the reports prepared internally for use by the Group's chief operating decision maker in reviewing the business performance of the operating segments. The differing economic characteristics and activities of these operating segments make it more useful to users of the consolidated financial statements to have information about each component of the Group's profit or loss, assets and liabilities.

Segment Assets and Liabilities

Segment assets include all operating assets used by a segment and consist primarily of operating cash, receivables, inventories, property, plant and equipment, right-of-use assets, net of allowances, accumulated depreciation and amortization, and impairment, and other noncurrent assets. Segment liabilities include all operating liabilities and consist primarily of loans payable, accounts payable and accrued expenses, lease liabilities, and other noncurrent liabilities. Segment assets and liabilities do not include deferred taxes. Capital expenditures consist of additions to property, plant and equipment of each reportable segment.

Inter-segment Transactions

Segment revenues, expenses and performance include sales and purchases between operating segments. Such transactions are eliminated in consolidation.

The Group operates only in the Philippines which is treated as a single geographical segment.

Major Customers

The Group sells, retails and distributes power, through power supply agreements (PSAs), retail supply contracts, ancillary service procurement agreements and other power-related service agreements, either directly to customers (other generators, distribution utilities, including Manila Electric Company [Meralco], electric cooperatives, industrial customers and National Grid Corporation of the Philippines) or through the Philippine Wholesale Electricity Spot Market (WESM). Sale of power to external customers that represents 10% or more of the Group's total revenues, is as follows:

	For the Periods Ended September 30	
Customer	**2026 (Unaudited)**	2025 (Unaudited)
Meralco	**P55,303,905**	P39,048,056
WESM	**36,227,792**	26,805,627

6. Significant Agreements and Lease Commitments

Independent Power Producer (IPP) Administration (IPPA) Agreement

As a result of the bidding conducted by the Power Sector Assets and Liabilities Management Corporation (PSALM) for the Appointment of the IPP Administrator for the capacity of the 345 megawatts (MW) San Roque Hydroelectric Multi-purpose Power Plant (San Roque Hydroelectric Power Plant), located in San Roque, Pangasinan Province, SRHI was declared the winning bidder to act as IPP Administrator thereof effective on January 26, 2010.

South Premiere Power Corp. (SPPC) also became the IPP Administrator for the Ilijan Power Plant, a natural gas-fired combined cycle power plant located in Ilijan, Batangas, in June 2010 until the Ilijan Power Plant was turned over to SPPC upon the expiration of the Ilijan IPPA Agreement in June 2022.

SPI served as the IPP Administrator for the Sual Power Plant from November 2009 until the end of the IPPA Agreement term on October 24, 2024. Accordingly, PSALM turned over the Sual Power Plant to SPI on October 25, 2024.

The IPPA Agreements are with the conformity of the National Power Corporation (NPC), a government-owned and controlled corporation created by virtue of Republic Act (RA) No. 6395, as amended, whereby NPC confirms, acknowledges, approves and agrees to the terms of the IPPA Agreements and further confirms that for so long as it remains the counterparty of the IPP, it will comply with its obligations and exercise its rights and remedies under the original agreement with the IPP at the request and instruction of PSALM.

The San Roque IPPA Agreement includes, among others, the following salient rights and obligations:

i. the right and obligation to manage and control the capacity of the power plant for its own account and at its own cost and risks;

ii. the right to trade, sell or otherwise deal with the capacity (whether pursuant to the spot market, bilateral contracts with third parties or otherwise) and contract for or offer related ancillary services, in all cases for its own account and at its own cost and risks. Such rights shall carry the rights to receive revenues arising from such activities without obligation to account therefore to PSALM or any third party;

iii. the right to receive a transfer of the power plant upon termination of the IPPA Agreement at the end of the cooperation period or in case of buy-out;

iv. the obligation to maintain the performance bond in full force and effect with a qualified bank; and

v. the obligation to pay PSALM the monthly payments and energy fees in respect of all electricity generated from the capacity, net of outages.

Pursuant to the IPPA Agreements, SRHI has to pay PSALM monthly payments for 18 years until April 26, 2028. Energy fees amounted to P961,907 and P1,207,332 for the periods ended September 30, 2026 and 2025, respectively (see Note 14). SRHI renewed its performance bond amounting to US$20,305 which will expire on January 25, 2027.

The lease liabilities of SRHI are carried at amortized cost using the US Dollar and Philippine Peso discount rates of 3.30% and 7.90%, respectively.

The discount determined at inception of the agreement is amortized over the period of the IPPA Agreement and recognized as part of "Interest expense and other financing charges" account in the consolidated statements of income. Interest expense amounted to P463,991 and P613,770 for the periods ended September 30, 2026 and 2025, respectively.

The carrying amount of the San Roque Hydroelectric Power Plant under the IPPA lease arrangement with PSALM, presented under "Right-of-use assets - net" account in the consolidated statements of financial position, amounted to P26,684,077 and P27,436,920 as at September 30, 2026 and December 31, 2025, respectively.

The total cash outflows for IPPA lease agreement with PSALM amounted to P4,816,501 and P3,168,882 for the periods ended September 30, 2026 and 2025, respectively.

Maturity analysis of lease payments as at September 30, 2026 and December 31, 2025 are disclosed in Note 17.

Joint Agreement with Meralco and Aboitiz Power Corporation (AboitizPower) on the Group's Liquefied Natural Gas (LNG) Projects

On January 27, 2025, the Parent Company completed the following transactions (collectively, the "Chromite Transaction" pursuant to the agreements executed on March 1, 2024 with Chromite Gas Holdings Inc. (CGHI), an entity owned jointly by Meralco PowerGen Corporation (a subsidiary of Meralco) and Therma NatGas Power, Inc. (a subsidiary of AboitizPower):

(i) Investment by CGHI of 67% equity interests in: (i) SPPC, the owner/operator of the 1,278 MW Ilijan Power Plant; (ii) Excellent Energy Resources Inc. (EERI), the owner/operator of the 1,320 MW Batangas Combined Cycle Power Plant; and (iii) Ilijan Primeline Industrial Estate Corp. (IPIEC), the owner of the land where EERI's power plant and facilities and the Batangas LNG Terminal are located.

(ii) Acquisition by CGHI and the Parent Company of 67% and 32.98% equity interests, respectively, in Linseed Field Corp. (LFC), the owner/operator of the Batangas LNG Terminal, which receives, stores and processes LNG to fuel the power plants of SPPC and EERI.

As a result of the Chromite Transaction, the Parent Company's equity interests in SPPC, EERI and IPIEC were diluted from 100% to 33%. Consequently, the Parent Company derecognized the assets and liabilities of the 3 subsidiaries and recognized the 33% equity interests retained at fair market values and a revaluation gain amounting to P52,706,102 and P21,933,046, respectively (see Note 15).

Subsequently, SPPC, EERI, and IPIEC redeemed and paid their respective redeemable preferred shares issued to the Parent Company, in cash totaling to P78,717,390. Consequently, the Parent Company recognized a net gain on investments in equity instruments amounting to P22,262,022 (net of tax amounting to P688,117), presented under "Net gain on financial assets at fair value through other comprehensive income" account in the consolidated statement of comprehensive income and under the "Retained earnings" account in the consolidated statement of changes in equity for the period ended September 30, 2025.

The Group recognized share in net earnings of EERI, SPPC, IPIEC and LFC amounting to P6,910,767 and P6,061,815, presented under "Equity in net earnings of associates and joint ventures - net" account in the consolidated statements of income for the periods ended September 30, 2026 and 2025, respectively.

7. Cash and Cash Equivalents

Cash and cash equivalents consist of:

	Note	**September 30, 2026 (Unaudited)**	December 31, 2025 (Audited)
Cash in banks and on hand		**P34,968,295**	P42,747,132
Short-term investments		**119,772,563**	58,751,238
	17, 18	**P154,740,858**	P101,498,370

Cash in banks earns interest at prevailing bank deposit rates. Short-term investments include demand deposits which can be withdrawn at any time depending on the immediate cash requirements of the Group and earn interest at short-term investment rates.

Interest income from cash and cash equivalents amounted to P4,027,102 and P2,626,577 for the periods ended September 30, 2026 and 2025, respectively.

8. Trade and Other Receivables

Trade and other receivables consist of:

	Note	**September 30, 2026 (Unaudited)**	December 31, 2025 (Audited)
Trade	*19*	**P60,340,287**	P78,488,797
Non-trade		**12,529,427**	12,293,775
Amounts owed by related parties	*11*	**2,966,932**	6,400,222
		75,836,646	97,182,794
Less allowance for impairment losses		**6,578,260**	6,366,364
	17, 18	**P69,258,386**	P90,816,430

Trade and other receivables are non-interest-bearing, unsecured and are generally on a 30-day term or an agreed collection period. The balance of trade receivables is inclusive of value-added tax (VAT) on the sale of power collectible from customers.

In August 2026, the Group collected the remaining trade receivables amounting to P24,289,471, representing the recovery of incremental fuel costs incurred in 2022 by the Sual and Ilijan power plants, through the sale of such receivables to a local bank (see Note 19). The proceeds from the sale amounted to P21,880,793, net of bank service charges of P2,408,678, which were recognized under “Interest expense and other finance charges” account in the consolidated statement of income for the period ended September 30, 2026.

The movements in the allowance for impairment losses are as follows:

	Note	**September 30, 2026 (Unaudited)**	December 31, 2025 (Audited)
Balance at beginning of period		**P6,366,364**	P4,867,019
Impairment losses		**211,896**	1,904,091
Deconsolidation of subsidiaries and others	*6*	**-**	(404,746)
Balance at end of period		**P6,578,260**	P6,366,364

Impairment losses recognized in the consolidated statements of income under “Selling and administrative expenses” account amounted to P211,896 for the period ended September 30, 2026. There were no impairment losses recognized in the consolidated statements of income for the period ended September 30, 2025.

9. Property, Plant and Equipment

Property, plant and equipment consist of:

September 30, 2026 and December 31, 2025

a. Other equipment includes machinery and equipment, transportation equipment, office equipment and furniture and fixtures.

b. CPIP pertains to the following:

   i. Projects of MPCL for the construction of the Masinloc Power Plant Units 4 and 5, which are expected to be substantially completed in the last quarter of 2026 and in 2027, respectively.

   ii. Projects of SMGP BESS for the construction of BESS facilities situated in various locations in the Philippines which are expected to be substantially completed up to 2027.

   iii. Various construction works relating to the solar and hydro power projects of SGLPC and SRHI, respectively.

      On January 8, 2026, the Department of Energy (DOE) awarded SGLPC, as among the winning bidders under the fourth auction round of the Green Energy Auction Program (GEAP) (GEA-4) launched on March 29, 2025, covering its offered aggregate capacity of 2,225 megawatts alternating current for solar power projects located in Luzon and Mindanao, with target completion between 2026 and 2029.

      On June 9, 2025, the DOE awarded SRHI, as among the winning bidders under the third auction round of the GEAP (GEA-3) conducted in February 2025, covering its offered aggregate capacity of 1,850 MW pump storage hydropower projects located in Luzon and Visayas, with target completion between 2031 and 2035.

c. In 2026, MPGC and MPI sold certain machinery and equipment parts to an external party for a total consideration of P6,075,589. As a result of the transaction, the Group recognized a gain of P1,208,043 which is presented under "Other income (charges) - net" account in the consolidated statement of income for the period ended September 30, 2026 (see Note 15).

d. Depreciation of property, plant and equipment are recognized in the consolidated statements of income as follows:

		For the Periods Ended September 30	
	Note	**2026 (Unaudited)**	2025 (Unaudited)
Cost of power sold	*14*	**P10,052,000**	P10,149,469
Selling and administrative expenses		**636,303**	544,947
		P10,688,303	P10,694,416

e. Reclassifications in 2026 and 2025 mainly pertain to:

   i. the 1,200 MW Sual Power Plant and related facilities, which were reclassified from the "Goodwill and other intangible assets - net" accounts following the full settlement of all obligations under the Settlement Agreement with Team (Philippines) Energy Corporation (TPEC) and Team Sual Corporation (TSC) in March 2025 and the full turnover of the power plant to SPI (see Note 6); and

   ii. transfers from CPIP account to specific property, plant and equipment accounts and application of advances to contractors against progress billings for ongoing capital projects.

f. As at September 30, 2026 and December 31, 2025, certain property, plant and equipment amounting to P289,494,887 and P281,944,512 respectively, are pledged as security for syndicated project finance loans (see Note 10).

g. Certain fully depreciated property, plant and equipment with aggregate costs amounting to P10,667,836 and P9,605,871 as at September 30, 2026 and December 31, 2025, respectively, are still being used in the Group's operations.

h. Additions to property, plant and equipment in 2026 and 2025 disclosed in this note, include noncash or unpaid portions. The additions to property, plant and equipment in the consolidated statements of cash flow reflect the actual cash flow of the Group during the period.

10. Long-term Debt

Long-term debt consists of:

a. On April 17, 2026, the Parent Company issued and listed with the Philippine Dealing & Exchange Corp. (PDEx), at the issue price of 100% of face value, a total of P30,000,000 fixed rate bonds, approved by the Philippine Securities and Exchange Commission on March 17, 2026.

It comes in three series, with terms and interest rates as follows:

	Term	Interest Rate Per Annum
Series N Bonds	5.25 years, due in 2031	7.6264%
Series O Bonds	7 years, due 2033	7.8682%
Series P Bonds	10 years, due 2036	8.1761%

Interest on the bonds shall be payable quarterly in arrears every January 17, April 17, July 17 and October 17 of each year starting July 17, 2026, as the first interest payment date.

The proceeds from the issuance of the bonds were used to: (i) refinance debt obligations; and (ii) partially fund the Group's pipeline of renewable energy projects.

b. On April 24 and July 13, 2026, the Parent Company redeemed its Series J and Series C Bonds, amounting to P6,923,100 and P4,756,310, respectively, upon their maturity pursuant to the terms and conditions of the bonds. The Series J Bonds formed part of the P30,000,000 Series H-I-J fixed rate bonds issued in April 2019, while the Series C Bonds formed part of the P15,000,000 Series A-B-C fixed rate bonds issued in July 2016.

   The Parent Company used in part the proceeds of its Series N-O-P Bonds for the redemptions.

c. On March 31, 2026, the Parent Company availed a P20,000,000 term loan with a local bank. The loan is subject to fixed interest rate and payable in March 2033.

   Net proceeds of the loan are being used to partially finance capital expenditures and for general corporate requirements pertaining to the pipeline of renewable energy projects awarded to the Group under the GEAP.

d. In 2026, the Parent Company made partial payments amounting to P1,000,000 of its P10,000,000 term loan, pursuant to the terms and conditions of its facility agreement executed in July 2024 with a local bank.

e. On April 8, 2026, the Parent Company availed of a US$400,000 (equivalent to P23,070,318, net of transaction cost) term loan from a facility agreement with a group of foreign banks executed on March 26, 2026.

   On June 26, 2026, the Parent Company availed of an additional US$100,000 (equivalent to P6,083,033, net of transaction cost) from the same credit facility. The loan is subject to a floating interest rate based on SOFR plus margin and will mature in March 2029.

   The proceeds of the loan are being used for financing and/or refinancing the design, development, construction, installation, and operation of renewable energy projects, including hydro, wind, and solar power plants awarded to the Group pursuant to the GEAP.

f. On March 9, 2026, the Parent Company fully settled its US$300,000 (equivalent to P17,850,000) term loan drawn in tranches in March 2021 and June 2021 from a foreign bank. The payment was funded by cash generated from operations.

g. On July 17, 2026, MPCL availed of a P50,000,000 term loan through its Omnibus New Expansion Financing Agreement (ONEFA) with various local banks executed on July 9, 2026. The loan is subject to a fixed interest rate and with maturities up to October 2035. The proceeds from the loan are being used to settle obligations with the contractors and suppliers in relation to the Masinloc expansion project, and to fund remaining project costs, transaction costs, fees and expenses in connection with or arising from the establishment of the said project.

The loan includes payable to Bank of Commerce (BOC), an associate of an entity under common control, amounting to P5,700,000 as at September 30 (see Note 11).

h. In September 2026, MPGC made principal repayments amounting to P1,336,750 pursuant to the terms and conditions of its Omnibus Loan and Security Agreement (OLSA).

The loan includes payable to BOC amounting to P7,350,000 and P7,500,000 as at September 30, 2026 and December 31, 2025, respectively (see Note 11).

i. In 2026, SMGP BESS made partial payments amounting to P1,500,000 of its P40,000,000, 10-year term loan, pursuant to the terms and conditions of its OLSA.

The loan includes payable to BOC amounting to P5,147,500 and P5,365,000 as at September 30, 2026 and December 31, 2025, respectively (see Note 11).

j. In 2026, MPI made partial payments amounting to P972,558 of its P21,300,000, 12-year term loan, pursuant to the terms and conditions of its OLSA.

The loan includes payable to BOC amounting to P1,690,560 and P1,836,672 as at September 30, 2026 and December 31, 2025, respectively (see Note 11).

k. In 2026, LPI made partial payments amounting to P2,681,000 of its P44,000,000, 12-year term loan, pursuant to the terms and conditions of its OLSA.

l. In 2026, MPCL made principal repayments amounting to P873,401 pursuant to the terms and conditions of its Amended Omnibus Refinancing Agreement (ORA).

The loan includes the P2,457,941 and P2,984,643 payable to BOC as at September 30, 2026 and December 31, 2025, respectively (see Note 11).

m. On April 29, 2026, MPCL made principal repayments amounting US$17,063 (equivalent to P1,050,487) pursuant to the terms and conditions of its Omnibus Expansion Facility Agreement (OEFA).

Unamortized debt issue costs amounted to P3,670,528 and P2,571,446 as at September 30, 2026 and December 31, 2025, respectively. Accrued interest amounted to P2,970,189 and P1,677,004 as at September 30, 2026 and December 31, 2025, respectively. Interest expense amounted to P16,322,259 and P15,054,375 for the periods ended September 30, 2026 and 2025, respectively.

The gross amount of long-term debt payable to BOC amounted to P22,346,001 and P17,686,315 as at September 30, 2026 and December 31, 2025, respectively (see Note 11).

On October 27, 2026, SMGP BESS made principal repayments amounting P500,000 pursuant to the terms and conditions of its OLSA.

On October 30, 2026, MPCL made principal repayments amounting US$17,850 (equivalent to P1,137,759) and P291,134 pursuant to the terms and conditions of OEFA and ORA, respectively.

Valuation Technique for Peso-denominated Bonds and Notes
The market value was determined using the market comparison technique. The fair values are based on PDEx. The Bonds and Notes are traded in an active market and the quotes reflect the actual transactions in identical instruments.

The fair value of the Bonds and Notes, amounting to P79,317,983 and P62,014,330 as at September 30, 2026 and December 31, 2025, respectively, has been categorized as Level 1 in the fair value hierarchy based on the inputs used in the valuation techniques (see Note 18).

The debt agreements of the Parent Company, LPI, MPI, MPCL, SMGP BESS and MPGC impose a number of covenants including, but not limited to, maintenance of certain financial ratios throughout the duration of the term of the debt agreements. The terms and conditions of the debt agreements also contain negative pledge provision with certain limitations on the ability of the Parent Company and its material subsidiaries, LPI, MPI, MPCL, SMGP BESS and MPGC to create or have any outstanding security interest upon or with respect to any of the present or future business, undertaking, assets or revenue (including any uncalled capital) of the Parent Company or any of its material subsidiaries, LPI, MPI, MPCL, SMGP BESS and MPGC to secure any indebtedness, subject to certain exceptions.

The loans of LPI, MPI, SMGP BESS and MPGC are secured by real estate and chattel mortgages, on all present and future assets, amounting to P44,100,000, P21,325,000, P40,000,000 and P41,900,000, respectively, and reserves of LPI, MPI, SMGP BESS and MPGC as well as a pledge by the Parent Company of all its outstanding shares of stock in LPI, MPI, SMGP BESS and MPGC.

The loans of MPCL obtained from its Amended ORA, OEFA, and ONEFA are secured by real estate and chattel mortgages, on all present assets (purchased under its asset purchase agreement, and all its rights in a land lease agreement, with PSALM) and all future assets as defined in its loan agreements, amounting to P8,155,000, US$525,000 and P50,000,000, respectively.

As at September 30, 2026 and December 31, 2025, the Group is in compliance with the covenants, including the required financial ratios, of the debt agreements.

The movements in debt issue costs are as follows:

	September 30, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at beginning of period	**P2,571,446**	P3,069,044
Additions	**1,899,449**	460,073
Amortization	**(740,616)**	(698,722)
Capitalized amount	**(59,751)**	(258,949)
Balance at end of period	**P3,670,528**	P2,571,446

Repayment Schedule

The annual maturities of the long-term debts as at September 30, 2026 are as follows:

	Gross Amount				
Year	US Dollar	Peso Equivalent of US Dollar	Peso	Debt Issue Costs	Net
October 1, 2026 to September 30, 2027	US$635,700	P39,820,248	P17,219,153	P578,264	P56,461,137
October 1, 2027 to September 30, 2028	187,275	11,730,906	60,820,048	606,024	71,944,930
October 1, 2028 to September 30, 2029	539,060	33,766,718	37,447,778	962,382	70,252,114
October 1, 2029 to September 30, 2030	140,844	8,822,531	25,683,450	343,682	34,162,299
October 1, 2030 to September 30, 2031	178,868	11,204,260	34,241,670	357,296	45,088,634
October 1, 2031 and thereafter	-	-	104,136,830	822,880	103,313,950
	US$1,681,747	**P105,344,663**	**P279,548,929**	**P3,670,528**	**P381,223,064**

Contractual terms of the Group's interest-bearing loans and borrowings and exposure to interest rate, foreign currency and liquidity risks are discussed in Note 17.

11. Related Party Disclosures

The Parent Company, certain subsidiaries and their shareholders, associates and joint ventures, purchase products and services from one another in the normal course of business. Transactions with related parties are made at normal market prices and terms. The Group requires approval of the BOD for certain limits on the amount and extent of transactions with related parties.

Amounts owed by/owed to related parties are collectible/will be settled in cash. An assessment is undertaken at each financial year by examining the financial position of the related party and the market in which the related party operates.

The following are the transactions with related parties and the outstanding balances as at September 30, 2026 (Unaudited) and December 31, 2025 (Audited):

	Note	Year	Revenues from Related Parties	Purchases from Related Parties	Amounts Owed by Related Parties	Amounts Owed to Related Parties	Terms	Conditions

a. Amounts owed by related parties consist of trade and non-trade receivables, receivables pertaining to the sale of certain parcels of raw land and investments in 2022, included as part of "Trade and other receivables - net" account in the consolidated statements of financial position, prepayments for rent and insurance, and security deposits (see Note 8).

   In July 2026, following an evaluation by Dewsweeper Industrial Park, Inc. and Bluelight Industrial Estate Inc. (wholly-owned landholding subsidiaries) of the use of their respective Pagbilao, Quezon properties that were sold to an entity under common control, the parties have mutually agreed to terminate the agreements resulting to the termination of the sale of land, the return of the total installments collected amounting to P1,232,962, reversal of the remaining receivables amounting to P528,413, and recognition of the raw land at fair value of P1,761,375 presented as part of "Investment property" account classified under "Other noncurrent assets" account in the statement of financial position as at September 30, 2026.

b. Amounts owed by associates mainly consist of advances for investments which will be applied against future stock subscription, presented as part of "Investments and advances - net" account in the consolidated statements of financial position.

c. Amounts owed to related parties consist of trade and non-trade payables including management fees, purchases of fuel and power, reimbursement of expenses, rent, insurance, services rendered, customers' deposits and subscriptions payable to Olongapo Electricity Distribution Company, Inc. As at September 30, 2026 and December 31, 2025, amounts owed to related parties for the lease of office space and parcels of land presented as part of "Lease liabilities - current portion" and "Lease liabilities - net of current portion" accounts in the consolidated statements of financial position amounted to P14,362,736 and P15,095,658, respectively.

d. Amounts owed by associates mainly consist of advances granted to EERI, included as part of "Trade and other receivables - net" account in the consolidated statements of financial position (see Note 8).

e. Amounts owed by a joint venture pertains to (i) interest-bearing loans granted and management fees charged to Angat Hydropower Corporation by PVEI, and (ii) sublease fees charged by SGLPC to Lucanin Solar Inc., included as part of "Trade and other receivables - net" and "Other noncurrent assets" accounts in the consolidated statements of financial position as at September 30, 2026 and December 31, 2025 (see Note 8).

f. Amounts owed to an associate and joint venture of entities under common control include interest-bearing long-term loans of MPI, MPCL, SMGP BESS and MPGC payable to BOC, amounting to P22,346,001 and P17,686,315, presented as part of "Long-term debt" account in the consolidated statements of financial position as at September 30, 2026 and December 31, 2025, respectively (see Note 10). These loans are secured by certain property, plant and equipment (see Note 9). The interest expense incurred on the loans amounted to P1,145,788 and P803,095 for the periods ended September 30, 2026 and 2025, respectively.

g. The compensation of key management personnel of the Group, by benefit type, are as follows:

	September 30, 2026 (Unaudited)	December 31, 2025 (Audited)
Short-term employee benefits	**P168,102**	P197,576
Retirement benefits costs	**10,732**	10,053
	P178,834	P207,629

There were no known transactions with parties that fall outside the definition of "related parties" under PAS 24, *Related Party Disclosures*, but with whom the Group or its related parties have a relationship that enables the parties to negotiate terms of material transactions that may not be available from other, more clearly independent parties on an arm's length basis.

12. Equity

Capital Stock

The details of the Parent Company's authorized, subscribed, issued and outstanding capital stock as at September 30, 2026 and December 31, 2025 are as follows:

	September 30, 2026 (Unaudited)		December 31, 2025 (Audited)	
	Number of Shares	**Amount**	Number of Shares	Amount
Authorized – par value of P1.00	**7,800,000,000**	**P7,800,000**	7,800,000,000	P7,800,000
Subscribed capital stock:				
Balance at beginning of period	**4,785,493,800**	**P4,785,494**	2,823,604,000	P2,823,604
Subscription	**1,500**	**2**	1,961,889,800	1,961,890
Issued and outstanding	**4,785,495,300**	**P4,785,496**	4,785,493,800	P4,785,494

On May 11, 2026, the BOD of the Parent Company approved the issuance of 1,500 common shares out of the unissued capital stock of the Parent Company in cash, at a subscription price of P1.00 per share or for a total subscription amount of P2.

On March 6, 2025, the BOD of the Parent Company approved the following:

- subscription by SMC to 950,796,000 common shares out of the unissued capital stock of the Parent Company in cash, at a subscription price of P30.00 per share or for a total subscription amount of P28,523,880;

- increase in its authorized capital stock of the Parent Company by P4,025,600 (comprising of 4,025,600,000 shares with par value of P1.00), or from P3,774,400, divided into 3,774,400,000 shares with par value of P1.00 to P7,800,000, divided into 7,800,000,000 shares with par value of P1.00 (the "ACS Increase"); and

- subscription by SMC to 1,011,093,800 common shares out of the ACS Increase at P30.00 per share, or for a total subscription amount of P30,332,814.

On the same day, the Parent Company and SMC executed the Subscription Agreements covering the aforesaid subscriptions approved by the BOD.

On April 14, 2025, the stockholders of the Parent Company approved the ACS Increase and the amendment of the Amended Articles of Incorporation to reflect the increase and ratified the said subscription by SMC out of the increase. The application for the ACS Increase was approved by the Philippine SEC on May 16, 2025.

The subscription amounts were fully paid by SMC to the Parent Company on April 7, 2025.

Accordingly, the Parent Company recognized additional paid-in capital (APIC) of P56,813,747, net of share issuance cost paid amounting to P81,057.

Issuance of Senior Perpetual Capital Securities (SPCS)

(i) On January 20, 2026, the Parent Company completed the issuance of US$300,000 SPCS (equivalent to P17,533,570, net of directly attributable transaction costs amounting to P302,930) at an issue price of 100.00% of principal amount, with an initial rate of distribution of 8.375% per annum and step-up date of January 20, 2031.

The net proceeds were used for the redemption of all outstanding 5.70% SPCS issued in January 2020.

The US$300,000 SPCS was listed on the Singapore Exchange Securities Trading Limited (SGX-ST) on January 21, 2026.

(ii) On February 19, 2025, the Parent Company completed the issuance of a US$100,000 SPCS (equivalent to P5,749,775, net of directly attributable transaction costs amounting to P88,243), at an issue price of 100.503% of principal amount, plus an amount corresponding to accrued distribution from (and including) December 2, 2024 to (but excluding) February 19, 2025. The US$100,000 SPCS was consolidated into and formed a single series with the US$500,000 SPCS issued on December 2, 2024 (the "US$500,000 SPCS"), bringing the total securities to US$600,000. The US$100,000 SPCS are identical in all respects with the US$500,000 SPCS, other than with respect to the date of issuance and issue price.

The net proceeds from the issuance of the US$100,000 SPCS were used for the redemption of the outstanding 7.00% SPCS issued in October and December 2020.

The US$100,000 SPCS were listed on the SGX-ST on February 20, 2025.

(iii) On August 11, 2025, the Parent Company completed the issuance of US$115,000 SPCS (equivalent to P6,457,100, net of directly attributable transaction costs amounting to P102,500) at an issue price of 100% plus an amount corresponding to accrued distributions from (and including) July 24, 2025 to (but excluding) August 11, 2025.

The US$115,000 SPCS is consolidated into and formed a single series with the US$400,000 SPCS issued on July 24, 2025, bringing the total securities to US$515,000. The US$400,000 SPCS and US$115,000 SPCS are identical in all respects, other than with respect to the date of issuance.

The Parent Company used the net proceeds for (i) the partial purchase, repurchase and/or redemption of the remaining outstanding SPCS issued in October and December 2020 and in January 2020, and (ii) for pre-development costs of solar and hydropower energy projects and capital expenditures related to BESS projects.

The US$115,000 SPCS was listed on the SGX-ST on August 12, 2025.

Issuance of SPCS, Partly Applied for Exchange and Tender Offers

On June 2, 2026, the Parent Company announced on the SGX-ST website the following:

a. in respect of the Parent Company's outstanding 5.45% US Dollar-denominated SPCS, issued on June 9, 2021 and September 15, 2021, listed with the SGX-ST (the "Existing Securities"), undertake the following to eligible holders:

   (1) offer for exchange and all of its Existing Securities for an equal principal amount of new US Dollar-denominated SPCS to be issued by the Parent Company (the "Exchanged New Securities") and to receive relevant accrued distribution amount (the "Exchange Offer"); and/or

   (2) tender Existing Securities for purchase for cash by the Parent Company up to an aggregate nominal amount and for the tender consideration amount (including the relevant accrued distribution amount), in each case, to be determined by the Parent Company (the "Tender Offer");

b. in addition to the Exchanged New Securities, undertake the offer and issuance of up to US$300,000 SPCS, or such other amount (the "Additional New Securities"), based on prevailing market conditions.

On June 17, 2026, the Parent Company completed the issuance of US$430,000 SPCS (the "US$430,000 SPCS", equivalent to P25,588,360, net of directly attributable transaction costs amounting to P380,630) at an issue price of 100%, with an initial rate of distribution of 8.875% per annum and step-up date of June 17, 2031.

The US$430,000 SPCS consists of the following:

(i) US$271,478 (equivalent to P16,155,062, net of directly attributable transaction costs amounting to P240,309) in aggregate principal amount of SPCS issued in exchange for Existing Securities (with a carrying value of P12,875,000) issued by the Parent Company pursuant to the Exchange Offers; and

(ii) US$158,522 (equivalent to P9,433,298, net of directly attributable transaction costs amounting to P140,321) in aggregate principal amount of Additional New Securities. This will partly fund the purchase of Existing Securities amounting to US$153,542 (with a carrying value of P7,281,817), accepted pursuant to the Tender Offers.

As a result of the foregoing, the movements in the Existing Securities are as follows:

Title of Existing Securities	Existing Securities	Accepted Exchange Offer	Accepted Tender Offer	Remaining Existing Securities	Amount in Philippine Peso*
5.45% SPCS issued on June 9 and September 15, 2021	US$683,548	(US$271,478)	(US$153,542)	US$258,528	P12,259,428

**Net of directly attributable transaction costs.*

The net proceeds from the issuances of the Additional New Securities were applied to the following: (i) costs and expenses related to the Exchange Offer for the Existing Securities, including payment of accrued distribution amounts in respect of the Existing Securities accepted for exchange, pursuant and subject to the terms and conditions of the Exchange Offer; (ii) costs and expenses related to the Tender Offer for the Existing Securities, including payment of the purchase price and the accrued distribution amounts in respect of the Existing Securities accepted for purchase, pursuant and subject to the terms and conditions of the Tender Offer; and (iii) for pre-development costs of solar and hydropower energy projects and capital expenditures related to BESS projects.

The US$430,000 SPCS were listed on the SGX-ST on June 18, 2026.

On July 24, 2025, the Parent Company completed the issuance of US$400,000 SPCS (equivalent to P22,333,675, net of directly attributable transaction costs amounting to P326,325), at an issue price of 100%, with an initial rate of distribution of 8.95% per annum.

The US$400,000 SPCS consists of the following:

(a) US$223,191 (equivalent to P12,461,688, net of directly attributable transaction costs amounting to P182,082) in aggregate principal amount of SPCS (the "Concurrent Exchange Offers") issued in exchange for the remaining 7.00% SPCS issued on October 21 and December 15, 2020, and 5.70% SPCS issued on January 21, 2020 (collectively, the "Remaining Existing Securities"), with a carrying value equivalent to P11,142,783; and

(b) US$176,809 (equivalent to P9,871,987, net of directly attributable transaction costs amounting to P144,243) in aggregate principal amount of new securities (the "Additional New Securities").

The net proceeds from the issuance of the Additional New Securities were applied to the following: (i) costs and expenses related to the Concurrent Exchange Offers, including payment of accrued distribution amounts in respect of the Remaining Existing Securities accepted for exchange pursuant and subject to the terms and conditions of the Concurrent Exchange Offers; (ii) costs and expenses related to the issuance of the Additional New Securities; (iii) purchase, repurchase and/or redemption of all outstanding Remaining Existing Securities following the Concurrent Exchange Offers; and (iv) for pre-development costs of solar and hydropower energy projects, and capital expenditures related to BESS projects.

The US$400,000 SPCS was listed on the SGX-ST on July 25, 2025.

As a result of the foregoing exchange, the movements in the Remaining Existing Securities are as follows:

Title of Existing Securities	Principal of Existing Securities	Accepted Exchange Offers	Remaining Principal of Existing Securities	Amount in Philippine Peso*
7.00% SPCS issued on October 21 and December 15, 2020	US$193,392	(US$30,277)	US$163,115	P8,170,849
5.70% SPCS issued on January 21, 2020	493,337	(192,914)	300,423	15,106,571
	US$686,729	**(US$223,191)**	**US$463,538**	**P23,277,420**

**Net of transaction costs.*

The difference between the price and carrying value of the securities accepted pursuant to the offers amounted to P5,511,416 and P1,500,987, and was recognized as part of the "Equity reserves" account in the consolidated statements of financial position as at September 30, 2026 and December 31, 2025, respectively.

The securities were offered to holders of existing securities pursuant to the Offers and were sold mainly offshore and to a limited number of qualified buyers in the Philippines. Hence, the Offers and sale of the securities qualified as exempt transactions for which no confirmation of exemption from the registration requirements of the SRC were required to be filed with the Philippine SEC.

The holders of the securities have conferred a right to receive distributions on a semi-annual basis from their issuance dates at the initial rate of distribution, subject to the step-up rate. The Parent Company has a right to defer this distribution under certain conditions.

The securities constitute direct, unconditional, unsecured and unsubordinated obligations of the Parent Company with no fixed redemption date and are redeemable in whole, but not in part, at the Parent Company's option on step-up date, or any distribution payment date thereafter or upon the occurrence of certain other events, at the principal amounts of the Securities plus any accrued, unpaid or deferred distribution.

Redemption of SPCS

i. On January 20, 2026, the Parent Company completed the redemption of the US$300,423 remaining securities, with a carrying value of P15,106,571, out of the US$600,000 SPCS issued in January 2020, pursuant to the terms and conditions of the securities. The redemption price is equal to the principal amount of the SPCS. Any accrued but unpaid distributions up to (but excluding) the redemption date were also settled.

ii. On May 9, 2025, the Parent Company completed the redemption of its US$113,282 remaining securities with a net carrying value of P5,627,100, out of the US$500,000 SPCS issued in November 2019, pursuant to the terms and conditions of the securities. The redemption price includes the principal amount and any accrued but unpaid distributions up to (but excluding) the redemption date.

The difference between the price paid and the carrying value of securities redeemed amounted to P2,755,078 and P661,184, and was recognized as part of the "Equity reserves" account in the consolidated statements of financial position as at September 30, 2026 and December 31, 2025, respectively.

Distributions to SPCS Holders

The Parent Company paid P15,368,170 and P12,096,613 to the SPCS holders for the periods ended September 30, 2026 and 2025, respectively, as distributions in accordance with the terms and conditions of the relevant subscription agreements.

Redemption of Redeemable Perpetual Capital Securities (RPCS)
In April 2025, the Parent Company redeemed the following RPCS issued to SMC with a total carrying value of P57,299,318:

Date of Issuance	Initial Rate of Distribution	Amount of RPCS Issued	Amount of RPCS Redeemed
US Dollar-denominated:			
March 10, 2023	8.00%	US$500,000	US$500,000
November 8, 2022	6.25%	85,000	6,646
Philippine Peso-denominated:			
July 10, 2023	7.50%	P5,000,000	P5,000,000
June 13, 2023	7.50%	6,760,000	6,760,000
June 5, 2023	7.50%	5,000,000	5,000,000
June 1, 2023	7.50%	7,000,000	7,000,000
May 30, 2023	7.50%	6,000,000	6,000,000

The difference between the price paid and the carrying value of the securities amounted to P1,557,375 and was recognized as part of the "Equity reserves" account in the consolidated statement of financial position as at December 31, 2025.

Distributions to RPCS Holders
For the periods ended September 30, 2026 and 2025, the Parent Company paid distributions amounting to P4,102,531 and P20,042,841 (including distributions in arrears of P14,617,039), respectively, to the RPCS holders.

Non-controlling Interests

i. Issuance of Redeemable Preferred Shares by GP Renewable

In March and May 2026, the BOD of GP Renewable approved the issuances of redeemable preferred shares to SPPC and EERI for a total amount of P14,849,700 and P21,449,678, respectively, which are being used for the Group's renewable energy projects and for general corporate purposes.

The salient features of the RPS include, among others, the following: (a) non-voting, except in those cases expressly required under Section 6 of the Revised Corporation Code; (b) not convertible to any class or series of common shares or preferred shares; (c) redeemable at the option of issuer at any time upon determination by its BOD, at a redemption price equivalent to the issue price; (d) shall have no pre-emptive right to any issue or disposition of any share of any class of the issuer; and (e) in case of dissolution and liquidation, the holder of the redeemable preferred shares shall be entitled to be paid in full, or ratably to the extent that the remaining assets of the issuer will permit, the issue price, without being entitled to any preference over holders of common shares in the distribution of assets.

ii. Issuance of RPCS by SGLPC

In May 2026, SGLPC issued a US$500,000 RPCS (equivalent to P30,178,528, net of directly attributable transaction costs amounting to P473,972), with a prescribed initial distribution rate per annum, payable pursuant to the terms of the agreement.

13. Revenues

Revenues consist of:

	Note	For the Periods Ended September 30	
		2026 (Unaudited)	2025 (Unaudited)
Sale of power:			
Power generation and trading	*19*	**P107,088,106**	P85,159,800
Retail and other power-related services		**41,160,247**	32,692,136
Other services		**829,112**	943,181
	5, 11	**P149,077,465**	P118,795,117

Revenues from other services mainly pertain to operations and maintenance services provided to various customers, including entities under common control (see Note 11).

14. Cost of Power Sold

Cost of power sold consists of:

	Note	For the Periods Ended September 30	
		2026 (Unaudited)	2025 (Unaudited)
Coal, fuel oil and other consumables	*11*	**P44,297,770**	P41,933,198
Power purchases	*11*	**22,602,796**	18,171,708
Depreciation and amortization	*9*	**10,885,705**	10,935,021
Plant operations and maintenance, and other fees		**9,623,705**	5,729,497
Energy fees	*6*	**961,907**	1,207,332
	5	**P88,371,883**	P77,976,756

15. Other Income (Charges) - net

Other income (charges) consist of:

	Note	For the Periods Ended September 30	
		2026 (Unaudited)	2025 (Unaudited)
Dividend income		**P2,360,505**	P501,427
Gain on sale of machinery and equipment	*9*	**1,208,043**	-
Insurance claims		**123,797**	31,598
Marked-to-market gains (losses) on derivatives	*18*	**113,550**	(55,685)
Gain on fair valuation of investments	*6*	**-**	21,933,046
Foreign exchange losses - net	*17*	**(877,009)**	(1,364,018)
Miscellaneous income - net		**87,142**	132,690
		P3,016,028	P21,179,058

Miscellaneous income - net mainly pertain to gain on lease modification, service fees and terminal fees.

16. Basic and Diluted Earnings Per Share

Basic and diluted earnings per share are computed as follows:

	For the Periods Ended September 30	
	2026 (Unaudited)	2025 (Unaudited)
Net income attributable to equity holders of the Parent Company	**P42,424,728**	P42,336,654
Distributions for the period to:		
RPCS holders	**(6,862,741)**	(7,521,094)
SPCS holders	**(14,804,603)**	(12,305,556)
Net income attributable to common shareholders of the Parent Company (a)	**20,757,384**	22,510,004
Weighted average number of common shares issued and outstanding (in thousands) (b)	**4,785,495**	4,019,187
Basic/Diluted Earnings Per Share (a/b)	**P4.34**	P5.60

As at September 30, 2026 and 2025, the Parent Company has no dilutive debt or equity instruments.

17. Financial Risk and Capital Management Objectives and Policies

Objectives and Policies

The Group has significant exposure to the following financial risks primarily from its use of financial instruments:

- Liquidity Risk
- Credit Risk
- Market Risk (Interest Rate Risk, Foreign Currency Risk and Commodity Price Risk)

This note presents information about the exposure to each of the foregoing risks, the objectives, policies and processes for measuring and managing these risks, and for management of capital.

The principal non-trade related financial instruments of the Group include cash and cash equivalents, restricted cash, long-term receivables, loans payable, long-term debt and derivative instruments. These financial instruments, except derivative instruments, are used mainly for working capital management purposes. The trade-related financial assets and financial liabilities of the Group such as trade and other receivables, accounts payable and accrued expenses, lease liabilities and other noncurrent liabilities arise directly from and are used to facilitate its daily operations.

The outstanding derivative instruments of the Group, such as forwards, are intended mainly for risk management purposes. The Group uses derivatives to manage its exposures to foreign currency and commodity price risks arising from the operating and financing activities.

The BOD has the overall responsibility for the establishment and oversight of the risk management framework of the Group.

The risk management policies of the Group are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The BOD constituted the Audit and Risk Oversight Committee to assist the BOD in fulfilling its oversight responsibility of the Group's corporate governance process relating to the: a) quality and integrity of the consolidated financial statements and financial reporting process and the systems of internal accounting and financial controls; b) performance of the internal auditors; c) annual independent audit of the consolidated financial statements, the engagement of the independent auditors and the evaluation of the independent auditors' qualifications, independence and performance; d) compliance with tax, legal and regulatory requirements; e) evaluation of management's process to assess and manage the enterprise risk issues; and f) fulfillment of the other responsibilities set out by the BOD. The Audit and Risk Oversight Committee shall prepare such reports as may be necessary to document the activities of the committee in the performance of its functions and duties. Such reports shall be included in the annual report of the Group and other corporate disclosures as may be required by the Philippine SEC and/or the PDEx.

The Audit and Risk Oversight Committee also oversees how management monitors compliance with the risk management policies and procedures of the Group and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. Internal Audit assists the Audit and Risk Oversight Committee in monitoring and evaluating the effectiveness of the risk management and governance processes of the Group. Internal Audit undertakes both regular and special reviews of risk management controls and procedures, the results of which are reported to the Audit and Risk Oversight Committee.

Liquidity Risk

Liquidity risk pertains to the risk that the Group will encounter difficulty to meet payment obligations when they fall under normal and stress circumstances.

The Group’s objectives to manage its liquidity risk are as follows: (a) to ensure that adequate funding is available at all times; (b) to meet commitments as they arise without incurring unnecessary costs; (c) to be able to access funding when needed at the least possible cost; and (d) to maintain an adequate time spread of refinancing maturities.

The Group constantly monitors and manages its liquidity position, liquidity gaps and surplus on a daily basis. A committed stand-by credit facility from several local banks is also available to ensure availability of funds when necessary. The Group also uses derivative instruments such as forwards to manage liquidity.

The table below summarizes the maturity profile of the Group's financial assets and financial liabilities based on contractual undiscounted receipts and payments used for liquidity management:

September 30, 2026 (Unaudited)	**Carrying Amount**	**Contractual Cash Flow**	**1 Year or Less**	**>1 Year - 2 Years**	**>2 Years - 5 Years**	**Over 5 Years**

**Excluding statutory receivables and payables.*

Credit Risk

Credit risk is the risk of financial loss to the Group when a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from trade and other receivables. The Group manages its credit risk mainly through the application of transaction limits and close risk monitoring. It is the Group's policy to enter into transactions with a wide diversity of creditworthy counterparties to mitigate any significant concentration of credit risk.

The Group has regular internal control reviews to monitor the granting of credit and management of credit exposures.

Trade and Other Receivables

The exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the Group's customer base, including the default risk of the industry in which customers operate, as these factors may have an influence on the credit risk.

The Group has established a credit policy under which each new customer is analyzed individually for creditworthiness before the standard payment and delivery terms and conditions are offered. The Group ensures that sales on account are made to customers with appropriate credit history. The Group has detailed credit criteria and several layers of credit approval requirements before engaging a particular customer or counterparty. The review includes external ratings, when available, and in some cases bank references. Purchase limits are established for each customer and are reviewed on a regular basis. Customers that fail to meet the benchmark creditworthiness may transact with the Group only on a prepayment basis.

Financial information on the Group's maximum exposure to credit risk, without considering the effects of other risk mitigation techniques, is presented below:

	Note	**September 30, 2026 (Unaudited)**	December 31, 2025 (Audited)
Cash and cash equivalents (excluding cash on hand)	*7*	**P154,738,556**	P101,496,244
Trade and other receivables - net*	*8*	**68,202,746**	87,689,285
Long-term receivables (including current portion)		**5,171,855**	5,503,179
Restricted cash		**25,942,369**	15,324,737
		P254,055,526	P210,013,445

**Excluding statutory receivables*

The table below presents the Group's exposure to credit risk and shows the credit quality of the financial assets by indicating whether the financial assets are subjected to 12-month ECL or lifetime ECL. Financial assets that are credit-impaired are separately presented.

	Financial Assets at Amortized Cost			
September 30, 2026 (Unaudited)	**12-month ECL**	**Lifetime ECL - not credit impaired**	**Lifetime ECL - credit impaired**	**Total**
Cash and cash equivalents (excluding cash on hand)	**P154,738,556**	**P -**	**P -**	**P154,738,556**
Trade and other receivables	**-**	**68,202,746**	**6,578,260**	**74,781,006**
Long-term receivables (including current portion)	**-**	**5,171,855**	**-**	**5,171,855**
Restricted cash	**25,942,369**	**-**	**-**	**25,942,369**
	P180,680,925	**P73,374,601**	**P6,578,260**	**P260,633,786**

	Financial Assets at Amortized Cost			
December 31, 2025 (Audited)	12-month ECL	Lifetime ECL - not credit impaired	Lifetime ECL - credit Impaired	Total
Cash and cash equivalents (excluding cash on hand)	P101,496,244	P -	P -	P101,496,244
Trade and other receivables	-	87,689,285	6,366,364	94,055,649
Long-term receivables (including current portion)	-	5,503,179	-	5,503,179
Restricted cash	15,324,737	-	-	15,324,737
	P116,820,981	P93,192,464	P6,366,364	P216,379,809

Receivables that are not credit impaired are considered high grade since the customers or counterparties have strong financial capacity and business performance and with the lowest default risk.

The aging of trade and other receivables (excluding statutory receivables) is as follows:

	September 30, 2026 (Unaudited)				December 31, 2025 (Audited)			
	Trade	**Non-trade**	**Amounts Owed by Related Parties**	**Total**	Trade	Non-trade	Amounts Owed by Related Parties	Total
Current	**P33,825,892**	**P5,688,969**	**P1,906,165**	**P41,421,026**	P51,579,651	P5,239,814	P3,148,216	P59,967,681
Past due:								
1 - 30 days	**2,999,473**	**53,413**	**542,722**	**3,595,608**	5,542,565	77,483	776,836	6,396,884
31 - 60 days	**1,661,483**	**11,164**	**15,221**	**1,687,868**	844,345	20,971	45,766	911,082
61 - 90 days	**884,823**	**28,523**	**27,724**	**941,070**	164,921	10,175	36,609	211,705
Over 90 days	**20,847,602**	**5,812,732**	**475,100**	**27,135,434**	20,165,951	6,080,828	321,518	26,568,297
	P60,219,273	**P11,594,801**	**P2,966,932**	**P74,781,006**	P78,297,433	P11,429,271	P4,328,945	P94,055,649

Past due trade receivables more than 30 days pertain mainly to generation charges and output VAT. The Group believes that the unimpaired amounts that are past due and those that are neither past due nor impaired are still collectible based on historical payment behavior and analyses of the underlying customer credit ratings.

The Group computes impairment loss on receivables based on past collection experience, current circumstances and the impact of future economic conditions, if any, available at the reporting period. There are no significant changes in the credit quality of the counterparties during the period. Except for specific customer accounts for which impairment losses have been recognized based on their current financial condition as of each reporting date, there were no significant indicators of a significant change in the credit quality of the unimpaired accounts of other customers or counterparties as of each reporting date.

The Group's cash and cash equivalents and restricted cash are placed with reputable entities with high quality external credit ratings.

The Group has significant concentration of credit risk. Sale of power to Meralco accounts for 37% and 33% of the Group's total revenues for the periods ended September 30, 2026 and 2025, respectively.

The Group does not execute any credit guarantee in favor of any counterparty.

Interest Rate Risk

Interest rate risk is the risk that future cash flows from a financial instrument (cash flow interest rate risk) or its fair value (fair value interest rate risk) will fluctuate because of changes in market interest rates. The Group's exposure to changes in interest rates relates primarily to the long-term borrowings. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. On the other hand, borrowings issued at variable rates expose the Group to cash flow interest rate risk.

The Group manages its interest cost by using an optimal combination of fixed and variable rate debt instruments. Management is responsible for monitoring the prevailing market-based interest rate and ensures that the mark-up rates charged on its borrowings are optimal and benchmarked against the rates charged by other creditor banks.

On the other hand, the investment policy of the Group is to maintain an adequate yield to match or reduce the net interest cost from its borrowings pending the deployment of funds to their intended use in the operations and working capital management. However, the Group invests only in high-quality short-term investments while maintaining the necessary diversification to avoid concentration risk.

In managing interest rate risk, the Group aims to reduce the impact of short-term fluctuations on the earnings. Over the longer term, however, permanent changes in interest rates would have an impact on profit or loss.

The management of interest rate risk is also supplemented by monitoring the sensitivity of the Group's financial instruments to various standard and non-standard interest rate scenarios.

Interest Rate Risk Table
The terms and maturity profile of the interest-bearing financial instruments, together with its gross amounts, are shown in the following tables:

Interest rate	SOFR + Margin	SOFR + Margin	SOFR + Margin	SOFR + Margin	SOFR + Margin	-	
	P43,866,694	P58,513,231	P64,036,312	P31,704,085	P39,670,765	P49,916,000	P287,707,087

The sensitivity to a reasonably possible 1% increase in the interest rates, with all other variables held constant, would have decreased the Group's income before income tax (through the impact on floating rate borrowings) by P703,392 and P776,356 for the period ended September 30, 2026 and for the year ended December 31, 2025, respectively. A 1% decrease in the interest rate would have had the equal but opposite effect. These changes are considered to be reasonably possible given the observation of prevailing market conditions in those periods. There is no impact on the Group's other comprehensive income.

Foreign Currency Risk
The functional currency is the Philippine Peso, which is the denomination of the bulk of the Group's revenues. The exposure to foreign currency risk results from significant movements in foreign exchange rates that adversely affect the foreign currency-denominated transactions of the Group. The risk management objective with respect to foreign currency risk is to reduce or eliminate earnings volatility and any adverse impact on equity. The Group enters into foreign currency hedges using derivative instruments, such as foreign currency forwards, to manage its foreign currency risk exposure.

Short-term currency forward contracts (non-deliverable) are entered into to manage foreign currency risks relating to foreign currency-denominated obligations and long-term borrowings.

Information on the Group's foreign currency-denominated monetary assets and monetary liabilities and their Philippine Peso equivalents is as follows:

		September 30, 2026 (Unaudited)		December 31, 2025 (Audited)	
	Note	**US Dollar**	**Peso Equivalent**	US Dollar	Peso Equivalent
Assets					
Cash and cash equivalents	*7*	**US$1,298,951**	**P81,366,321**	US$889,224	P52,277,472
Trade and other receivables	*8*	**77,624**	**4,862,341**	111,450	6,552,117
Long-term receivables		**35,883**	**2,247,721**	35,154	2,066,705
		1,412,458	**88,476,383**	1,035,828	60,896,294
Liabilities					
Accounts payable and accrued expenses		**226,530**	**14,189,813**	1,248,509	73,399,840
Long-term debt (including current maturities)	*10*	**1,681,747**	**105,344,663**	1,498,810	88,115,039
Lease liabilities (including current portion)		**91,061**	**5,704,089**	132,587	7,794,794
		1,999,338	**125,238,565**	2,879,906	169,309,673
Net Foreign Currency-denominated Monetary Liabilities		**US$586,880**	**P36,762,182**	US$1,844,078	P108,413,379

The Group reported net losses on foreign exchange amounting to P877,009 and P1,364,018 for the periods ended September 30, 2026 and 2025, respectively, with the translation of its foreign currency-denominated assets and liabilities (see Note 15).

These mainly resulted from the movements of the Philippine Peso against the US Dollar as shown in the following table:

	US Dollar to Philippine Peso
September 30, 2026	**P62.640**
December 31, 2025	58.790
September 30, 2025	58.196
December 31, 2024	57.845

The management of foreign currency risk is also supplemented by monitoring the sensitivity of the Group's financial instruments to various foreign currency exchange rate scenarios.

The following table demonstrates the sensitivity to a reasonably possible change in the US Dollar exchange rate, with all other variables held constant, of the Group's income before income tax (due to changes in the fair value of monetary assets and liabilities) and the Group's equity (due to translation of results and financial position of foreign operations):

	P1 Decrease in the US Dollar Exchange Rate		**P1 Increase in the US Dollar Exchange Rate**	
September 30, 2026 (Unaudited)	**Effect on Income before Income Tax**	**Effect on Equity**	**Effect on Income before Income Tax**	**Effect on Equity**
Cash and cash equivalents	**(P1,291,583)**	**(P976,056)**	**P1,291,583**	**P976,056**
Trade and other receivables	**(77,624)**	**(58,218)**	**77,624**	**58,218**
Long-term receivables	**(35,883)**	**(26,912)**	**35,883**	**26,912**

	P594,244	**P438,319**	**(P594,244)**	**(P438,319)**

	P1 Decrease in the US Dollar Exchange Rate		P1 Increase in the US Dollar Exchange Rate	
December 31, 2025 (Audited)	Effect on Income before Income Tax	Effect on Equity	Effect on Income before Income Tax	Effect on Equity
Cash and cash equivalents	(P881,746)	(P668,787)	P881,746	P668,787
Trade and other receivables	(111,450)	(83,587)	111,450	83,587
Long-term receivables	(35,154)	(26,366)	35,154	26,366
	(1,028,350)	(778,740)	1,028,350	778,740
Accounts payable and accrued expenses	1,248,375	936,415	(1,248,375)	(936,415)
Long-term debt (including current maturities)	1,498,810	1,124,108	(1,498,810)	(1,124,108)
Lease liabilities (including current portion)	132,587	99,440	(132,587)	(99,440)
	2,879,772	2,159,963	(2,879,772)	(2,159,963)
	P1,851,422	P1,381,223	(P1,851,422)	(P1,381,223)

Exposures to foreign exchange rates vary during the year depending on the volume of foreign currency-denominated transactions. Nonetheless, the analysis above is considered to be representative of the Group's foreign currency risk.

Other Market Price Risk

The Group's market price risk arises from its investments carried at fair value (financial assets at FVOCI). The Group manages its risk arising from changes in market price by monitoring the changes in the market price of the investments.

Capital Management

The Group maintains a sound capital base to ensure its ability to continue as a going concern, thereby continue to provide returns to stockholders and benefits to other stakeholders and to maintain an optimal capital structure to reduce cost of capital.

The Group manages its capital structure and makes adjustments in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, distribution payment, pay-off existing debts, return capital to shareholders or issue new shares, subject to compliance with certain covenants of its long-term debts, SPCS and RPCS (see Notes 10 and 12).

The Group defines capital as capital stock, additional paid-in capital, SPCS, RPCS and retained earnings, both appropriated and unappropriated. Other components of equity such as equity reserves are excluded from capital for purposes of capital management.

The Group monitors capital on the basis of debt-to-equity ratio, which is calculated as total debt divided by total equity. Total debt is defined as total current liabilities and total noncurrent liabilities, while equity is total equity as shown in the consolidated statements of financial position.

The BOD has overall responsibility for monitoring capital in proportion to risk. Profiles for capital ratios are set in the light of changes in the external environment and the risks underlying the Group's business, operation and industry.

There were no changes in the Group's approach to capital management during the period.

18. Financial Assets and Financial Liabilities

The table below presents a comparison by category of the carrying amounts and fair values of the Group's financial instruments:

	September 30, 2026 (Unaudited)		December 31, 2025 (Audited)	
	Carrying Amount	**Fair Value**	Carrying Amount	Fair Value
Financial Assets				
Cash and cash equivalents	**P154,740,858**	**P154,740,858**	P101,498,370	P101,498,370
Trade and other receivables - net*	**68,202,746**	**68,202,746**	87,689,285	87,689,285
Financial assets at FVOCI (included under "Investments and advances" account)	**19,423,142**	**19,423,142**	26,757,446	26,757,446
Long-term receivables (including current portion)	**5,171,855**	**5,171,855**	5,503,179	5,503,179
Restricted cash (included under "Prepaid expenses and other current assets" and "Other noncurrent assets" accounts)	**25,942,369**	**25,942,369**	15,324,737	15,324,737
	P273,480,970	**P273,480,970**	P236,773,017	P236,773,017
Financial Liabilities				
Loans payable	**P33,000,000**	**P33,000,000**	P33,000,000	P33,000,000
Accounts payable and accrued expenses*	**56,759,994**	**56,759,994**	83,785,524	83,785,524
Long-term debt - net (including current maturities)	**381,223,064**	**390,419,969**	285,135,641	301,593,484
Lease liabilities (including current portion)	**24,976,253**	**24,976,253**	29,700,875	29,700,875
Other noncurrent liabilities	**733,639**	**733,639**	560,435	560,435
	P496,692,950	**P505,889,855**	P432,182,475	P448,640,318

**Excluding statutory receivables and payables*

The following methods and assumptions are used to estimate the fair value of each class of financial instruments:

Cash and Cash Equivalents, Trade and Other Receivables (excluding statutory receivables), Long-term Receivables, and Restricted Cash. The carrying amounts of cash and cash equivalents, and trade and other receivables approximate their fair values primarily due to the relatively short-term maturities of these financial instruments. In the case of long-term receivables and restricted cash, the carrying amounts approximate their fair values, since the effect of discounting is not considered material.

Financial Assets at FVOCI. The fair values of publicly traded instruments and similar investments are based on quoted market prices in an active market. For equity instruments with no quoted market prices, the carrying amounts approximate their fair values, since the effect of discounting is not considered material.

As at September 30, 2026 and December 31, 2025, the Parent Company owns 46,596,596 common shares of Meralco which were revalued at the fair market value of P416.60 per share and P574.00 per share or for a total of P19,412,142 and P26,746,446, respectively, included in the “Investments and advances - net” account in the consolidated statements of financial position. The Parent Company recognized a revaluation loss of P7,326,970 (net of tax), presented under “Net loss on financial assets at fair value through other comprehensive income” account in the consolidated statement of comprehensive income for the period ended September 30, 2026.

Derivatives. The fair values of forward exchange contracts are calculated by reference to current forward exchange rates. In the case of freestanding currency, the fair values are determined based on quoted prices obtained from an active market. Fair values for stand-alone derivative instruments that are not quoted from an active market and for embedded derivatives are based on valuation models used for similar instruments using both observable and non-observable inputs. The fair values of the derivatives have been categorized as Level 2 in the fair value hierarchy.

Loans Payable and Accounts Payable and Accrued Expenses (excluding statutory payables). The carrying amounts of loans payable and accounts payable and accrued expenses approximate their fair values due to the relatively short-term maturities of these financial instruments.

Lease Liabilities. The fair value is based on the present value of expected cash flows using the applicable discount rates based on current market rates of similar instruments. The fair value of lease liabilities has been categorized as Level 2 in the fair value hierarchy.

Long-term Debt and Other Noncurrent Liabilities. The fair value of interest-bearing fixed-rate loans is based on the discounted value of expected future cash flows using the applicable market rates for similar types of instruments as at reporting date. Discount rates used for Philippine Peso-denominated loans range from 5.12% to 10.53% and 4.64% to 8.56% as at September 30, 2026 and December 31, 2025, respectively. Discount rates used for foreign currency-denominated loans range from 3.91% to 5.06% and 3.44% to 3.73% as at September 30, 2026 and December 31, 2025, respectively. The carrying amounts of floating rate loans with quarterly interest rate repricing approximate their fair values.

The fair value of Peso-denominated bonds has been categorized as Level 1 and interest-bearing fixed-rate loans, lease liabilities and other noncurrent liabilities have been categorized as Level 2 in the fair value hierarchy.

Derivative Financial Instruments

The Group's derivative financial instruments according to the type of financial risk being managed and the details of freestanding derivative financial instruments that are categorized into those accounted for as cash flow hedges and those that are not designated as accounting hedges are discussed below.

The Group enters into various foreign currency derivative contracts to manage its exposure on foreign currency risks. The portfolio is a mixture of instruments including forwards.

Derivative Instruments not Designated as Hedges

The Group enters into certain derivatives as economic hedges of certain underlying exposures. These include freestanding derivatives which are not designated as accounting hedges. Changes in fair value of these instruments are accounted for directly in the consolidated statements of income. Details are as follows:

Freestanding Derivatives

Freestanding derivatives consist of foreign currency derivatives entered into by the Group.

Currency Forwards

As at September 30, 2026, the Group has no outstanding short-term foreign currency forward contracts.

The Group recognized marked-to-market gains (losses) from freestanding derivatives amounting to P113,550 and (P55,685) for the periods ended September 30, 2026 and 2025, respectively (see Note 15).

Fair Value Changes on Derivatives

The net movements in fair value of all derivative instruments are as follows:

	September 30, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at beginning of period	**P -**	(P13,725)
Net change in fair value of derivatives not designated as accounting hedge	**113,550**	(54,210)
	113,550	(67,935)
Less fair value of settled instruments	**113,550**	(67,935)
Balance at end of period	**P -**	P -

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either: (a) in the principal market for the asset or liability; or (b) in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

- Level 3: inputs for the asset or liability that are not based on observable market data.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

19. Other Matters

a. Contingencies

The Group is a party to certain cases or claims which are either pending decision by the court/regulators or are subject to settlement agreements. The outcome of these cases or claims cannot be presently determined.

i. Petition to Stop the Imposition of the Increase in Generation Charge

On December 5, 2013, Meralco wrote the Energy Regulatory Commission (ERC) requesting for clearance and authority: (i) to collect a generation charge of P7.90 per kilowatt hour (kWh) in its December 2013 billings to its customers for its generation cost for the month of November 2013; and (ii) to defer to February 2014 the recovery of the remaining P3,000,000, representing a portion of the generation costs for the November 2013 supply month which was not passed on to customers in December 2013, subject to the inclusion of the appropriate carrying charge. In response thereto, the ERC, in its letter dated December 9, 2013, granted Meralco the authority to implement a staggered collection of its generation cost for the power supplied in November 2013. The ERC, however, did not approve Meralco's request to recover the carrying costs and directed it to file a formal application for this instead.

On December 19, 2013, Petitioners Bayan Muna representatives, et al. filed a petition against the ERC and Meralco, questioning the increase in the generation cost for November 2013 supply month. On December 20, 2013, Petitioner National Association of Electricity Consumers for Reforms (NASECORE) et al. filed a petition against the ERC, DOE and Meralco assailing the automatic adjustment of generation cost. On December 23, 2013, the Supreme Court (SC) issued a resolution consolidating both petitions and issued a Temporary Restraining Order (TRO), originally for a period of 60 days, enjoining: (i) the ERC from implementing its letter dated December 9, 2013, and (ii) Meralco from increasing the rates it charged to its consumers based on its letter dated December 5, 2013.

As a result, Meralco was constrained to fix its generation rate to its October 2013 level of P5.67 per kWh.

On January 8, 2014, Meralco filed its Consolidated Comment/Opposition with Counter-Petition (the "Counter-Petition") which prayed, among others, for the inclusion of SPI, SPPC, SRHI, MPCL and several generators as respondents to the case. On January 10, 2014, the SC issued an Order treating the Counter-Petition as in the nature of a third party complaint and granting the prayer to include SPI, SPPC, SRHI and MPCL as respondents in the Petition.

On February 18, 2014, the SC extended the TRO issued on December 23, 2013 for another 60 days or until April 22, 2014 and granted additional TROs enjoining the Philippine Electricity Market Corporation (PEMC) and the generators from demanding and collecting the deferred amounts. In a Resolution dated April 22, 2014, the SC extended indefinitely the effectivity of the TROs issued on December 23, 2013 and February 18, 2014.

In the Petition filed by special interest groups, the SC was made aware of the order of the ERC dated March 3, 2014 (the "March 3, 2014 ERC Order") (as defined and discussed under "ERC Order Voiding WESM Prices" below), in which the ERC declared void the WESM prices during the November and December 2013 supply months and imposed regulated prices in their stead. The March 3, 2014 ERC Order likewise directed PEMC to: (a) calculate these "regulated prices" based on a formula identified by the ERC as representative of 2013 market prices under normalized conditions and (b) to collect the same from the WESM participants involved.

A decision was promulgated by the SC En Banc on August 3, 2021 (the "SC Decision"), affirming the December 9, 2013 ERC Order, which approved the staggered imposition by Meralco of its generation rate for November 2013 from its consumers and declared as null and void the March 3, 2014 ERC Order. SPI, SPPC, and SRHI however received a copy of the SC Decision through their counsel only on July 5, 2022, while MPCL received the same on July 6, 2022.

On July 26, 2022, the special interest groups sought reconsideration of the SC Decision by filing separate Motions for Reconsideration where they prayed that the SC Petition be granted. The ERC likewise filed a Motion for Partial Reconsideration of the SC Decision and sought the reinstatement of the March 3, 2014 ERC Order, among others.

These motions were denied with finality by the SC En Banc, in its Resolution dated October 11, 2022, which also directed the entry of judgment of the SC Decision be made immediately. On January 4, 2023, the external counsel of SPPC, SPI and SRHI received a copy of the Entry of Judgement from the SC En Banc dated October 11, 2022, while the external counsel of MPCL received a copy of the same on January 5, 2023.

With this, MPCL, SPI and SPPC are pursuing the implementation of the SC Decision as at September 30, 2026. MPCL, SPI and SPPC have aggregate outstanding receivables from Meralco estimated at P1,275,985 included under "Trade and other receivables - net" account in the consolidated statements of financial position as at September 30, 2026 and December 31, 2025.

ii. ERC Order Voiding WESM Prices

Relative to the above-cited Petition, on December 27, 2013, the DOE, ERC and PEMC, acting as a tripartite committee, issued a joint resolution setting a reduced price cap on the WESM of P32.00 per kWh. The price was set to be effective for 90 days until a new cap is decided upon.

On March 3, 2014, the ERC, in the exercise of its police power, issued an order in Miscellaneous Case No. 2014-021, declaring the November and December 2013 Luzon WESM prices void, imposed the application of regulated prices and mandated PEMC, the operator of the WESM, to calculate and issue adjustment bills using recalculated price (the "March 3, 2014 ERC Order").

Subsequent orders were issued by the ERC setting the period for compliance of the March 3, 2014 ERC Order (collectively, together with the March 3, 2014 ERC Order, the "2014 ERC Orders"). Based on these orders, SPI and SRHI recognized a reduction in the sale of power while MPCL, San Miguel Electric Corp. (SMELC) and SPPC recognized a reduction in its power purchases. Consequently, a payable and receivable were also recognized for the portion of over-collection or over-payment, the settlement of which have been covered by a 24-month Special Payment Arrangement with PEMC which was already completed on May 25, 2016.

SPI, SPPC, SRHI and MPCL filed various pleadings requesting ERC for the reconsideration of the March 3, 2014 ERC Order. Other generators also requested the SC to stop the implementation of the March 3, 2014 ERC Order. The ERC denied the motions for reconsideration filed by the generators.

On June 26, 2014, SPI, SPPC and SRHI, and on December 12, 2014, MPCL appealed the said ERC denial before the Court of Appeals (CA) through their respective Petitions for Review.

After consolidating the cases, the CA, in its Decision dated November 7, 2017 (the "November 7, 2017 Decision"), granted the Petition for Review filed by SPI, SPPC, SRHI and MPCL, declared the 2014 ERC Orders null and void and accordingly reinstated and declared as valid the WESM prices for Luzon for the supply months of November to December 2013.

Motions for Reconsideration of the November 7, 2017 Decision and several other motions which were filed by various intervenors, were denied by the CA through its Omnibus Resolution dated March 29, 2019. The intervenors filed Petitions for Review on Certiorari before the SC, which were also denied by the SC through its resolutions dated September 11, 2019 and October 1, 2019. Entries of judgment were subsequently issued by the SC.

The ERC and Meralco also filed separate Petitions for Review appealing the above orders, which nullified and set aside the 2014 ERC Orders, declaring the WESM prices for November and December 2013 void. The SC directed the consolidation of the separate petitions to the 3rd Division of the SC.

The SC has not yet promulgated a decision as at September 30, 2026. However, on August 3, 2021, a Decision was rendered by the SC En Banc in a separate case (as discussed under *"Petition to Stop the Imposition of the Increase in Generation Charge*") declaring the March 3, 2014 ERC Order as null and void, which is the subject of the aforementioned Petition. Considering that this decision of the SC En Banc covers the March 3, 2014 ERC Order, the difference between the actual Luzon WESM prices and the regulated prices (based on the March 3, 2014 ERC Order) for WESM sales and purchases by SPI, SPPC, SRHI, SMELC and MPCL amounting to up to P2,321,785 will have to be settled with the Independent Electricity Market Operator of the Philippines the current operator of the WESM, in favor of the relevant subsidiaries of the Group.

iii. Ilijan IPPA Agreement Dispute

SPPC and PSALM were parties to the Ilijan IPPA Agreement covering the appointment of SPPC as the IPP Administrator of the Ilijan Power Plant.

SPPC and PSALM have an ongoing dispute arising from differing interpretations of certain provisions related to generation payments under the Ilijan IPPA Agreement. As a result of such dispute, the parties have arrived at different computations regarding the subject payments. In a letter dated August 6, 2015, PSALM has demanded payment of the difference between the generation payments calculated based on its interpretation and the amount which has already been paid by SPPC, plus interest, covering the period December 26, 2012 to April 25, 2015.

On August 12, 2015, SPPC initiated a dispute resolution process with PSALM as provided under the terms of the Ilijan IPPA Agreement, while continuing to maintain its position that it has fully paid all of its obligations to PSALM. Notwithstanding the bona fide dispute, PSALM issued a notice terminating the Ilijan IPPA Agreement on September 4, 2015. On the same day, PSALM also called on the performance bond posted by SPPC pursuant to the Ilijan IPPA Agreement (see Note 6).

On September 8, 2015, SPPC filed a Complaint with the RTC of Mandaluyong City requesting the RTC that its interpretation of the relevant provisions of the Ilijan IPPA Agreement be upheld and asked that a 72-hour TRO be issued against PSALM for illegally terminating the Ilijan IPPA Agreement and drawing on the performance bond of SPPC. On even date, the RTC issued a 72-hour TRO which prohibited PSALM from treating SPPC as being in Administrator Default and from performing other acts that would change the status quo ante between the parties before PSALM issued the termination notice and drew on the performance bond of SPPC. The TRO was extended, and a Preliminary Injunction was later on granted maintaining status quo while the main case is pending.

Despite the pendency of the proceedings, the Ilijan Power Plant was turned over by PSALM to SPPC pursuant to the Ilijan IPPA Agreement and the Deed of Sale executed between PSALM and SPPC on June 3, 2022 (see Note 6).

Trial on the merits proceeded until the RTC rendered a decision in favor of SPPC on June 13, 2025 (the "June 13, 2025 RTC Decision"), which was received by SPPC on October 7, 2025. The June 13, 2025 RTC Decision stated that PSALM's termination of the Ilijan IPPA Agreement, drawing of the Performance Bond, and issuance of the Cessation Notice were unauthorized and without factual and legal basis, ordered PSALM to among others return to SPPC the amount of the Performance Bond drawn by PSALM, with interests, and dismissed PSALM's counterclaim for lack of merit.

On October 22, 2025, PSALM filed a Motion for Reconsideration of the June 13, 2025 RTC Decision. SPPC filed its Opposition to the Motion for Reconsideration on October 28, 2025.

On January 16, 2026, the RTC issued an order denying PSALM's Motion for Reconsideration of the June 13, 2025 RTC Decision (the "January 16, 2026 RTC Order").

On March 5, 2026, SPPC through its external counsel received the Notice of Appeal dated February 24, 2026, filed by PSALM where it notified the RTC that it is appealing the June 13, 2025 RTC Decision and the January 16, 2026 RTC Order. In an Order dated March 2, 2026, the RTC gave due course to PSALM's appeal and directed that the entire records of the case be elevated to the CA immediately.

iv. Complaint against PSALM, TPEC and TSC

On October 21, 2015, SPI filed a criminal complaint for Plunder and violation of Sections 3(e) and 3(f) of Republic Act No. 3019, otherwise known as the "Anti-Graft and Corrupt Practices Act" ("RA No. 3019"), before the Department of Justice (DOJ) against a certain officer of PSALM, and certain officers of TPEC and TSC, relating to the illegal grant of the so-called "excess capacity" of the Sual Power Plant in favor of TPEC which enabled it to receive a certain amount at the expense of the Government and SPI.

In a Resolution dated July 29, 2016, the DOJ found probable cause to file an Information against the respondents for Plunder and violation of Sections 3(e) and 3(f) of RA No. 3019 (the "July 29, 2016 DOJ Resolution"). The DOJ further resolved to forward the entire records of the case to the Office of the Ombudsman for their proper action. The TPEC and TSC officers have respectively appealed said July 29, 2016 DOJ Resolution, through the filing of a Petition for Review with the Secretary of Justice while the PSALM officer filed a Verified Motion for Reconsideration.

On October 25, 2017, the DOJ issued a Resolution partially granting the Petition for Review of the TPEC and TSC officers by reversing the July 29, 2016 DOJ Resolution insofar as the conduct of the preliminary investigation was concerned, ruling that the Office of the Prosecutor General should have endorsed the case to the Office of the Ombudsman. On November 17, 2017, SPI filed a motion for partial reconsideration of said DOJ Resolution dated October 25, 2017.

While the said Motion for Partial Reconsideration was pending, SPI, TPEC, TSC and the TPEC and TSC officers filed before the DOJ a Joint Motion to Dismiss dated June 6, 2022 praying for the dismissal of the criminal complaint filed by SPI against TPEC and TSC.

In a Resolution promulgated on May 5, 2023, the DOJ affirmed its Resolution dated October 25, 2017. The DOJ held that considering SPI's desistance, SPI's Motion for Partial Reconsideration of the DOJ's Resolution of October 25, 2017 was considered dismissed and/or withdrawn. The PSALM officer's Verified Motion for Reconsideration remains unresolved as at report date.

v. SPI Consignation Case

On June 17, 2016, SPI filed with the RTC of Pasig City (the "RTC Pasig") a civil complaint for consignation against PSALM arising from PSALM's refusal to accept SPI's remittances corresponding to the proceeds from the sale to the WESM of electricity generated from capacity in excess of the 1,000 MW of the Sual Power Plant (the "Sale of the Excess Capacity"). With the filing of the complaint, SPI also consigned with the RTC Pasig, the amount corresponding to the proceeds of the Sale of the Excess Capacity for the billing periods December 26, 2015 to April 25, 2016.

PSALM filed an Answer dated August 17, 2016 stating that it has no right to, and is not the owner of, the proceeds from the Sale of the Excess Capacity and that the consigned amount should belong to TPEC as it is rightfully entitled to the 200 MW excess capacity of the Sual Power Plant (the "Excess Capacity").

On October 3, 2016, SPI filed an Omnibus Motion to Admit Supplemental Complaint and to Allow Future Consignation without Tender (the "Omnibus Motion"). Together with this Omnibus Motion, SPI consigned with the RTC Pasig an additional amount corresponding to the proceeds of the Sale of the Excess Capacity for the billing periods from April 26, 2016 to July 25, 2016. Subsequently, SPI continuously consigned additional proceeds from the Sale of the Excess Capacity for succeeding billing periods, with the RTC Pasig.

On May 22, 2018, the RTC Pasig issued an Order dismissing the complaint for consignation filed by SPI on the ground that the court has no jurisdiction over the subject matter of the complaint and finding that the ERC has the technical competence to determine the proper interpretation of "contracted capacity", the fairness of the settlement formula and the legality of the memorandum of agreement. SPI filed its Motion for Reconsideration (MR) to this Order.

After the case was re-raffled, the RTC Pasig Branch 268, in an Order dated September 30, 2021, (a) granted SPI's Motion for Reconsideration and Supplemental Motion for Reconsideration of the Order dated May 22, 2018, which dismissed the case for lack of jurisdiction; (b) granted SPI's Omnibus Motion to Admit Supplemental Complaint and Allow Future Consignations without Tender; and (c) reinstated the Complaint.

On October 5, 2022, SPI and PSALM filed an Omnibus Motion to Dismiss and Release Deposited Monies, whereby PSALM, agreed to the release of the said amounts to TPEC. Relying on PSALM's representation and acknowledgment, SPI did not object to the release of the consigned amounts to TPEC, which was later granted by the RTC Pasig Branch 268.

Further related thereto, on December 1, 2016, SPI received a copy of a Complaint filed by TPEC and TSC with the ERC against SPI and PSALM in relation to issues on the Excess Capacity, which have already been raised in the abovementioned cases. SPI filed a Motion to Dismiss and Motion to Suspend Proceeding of the instant case.

On June 6, 2022, SPI, TPEC and TSC filed a Joint Motion to Dismiss the ERC complaint. SPI received the Order from the ERC on June 22, 2022, asking the parties to submit a copy of the settlement agreement within 5 days from receipt of such order. TPEC, TSC and SPI filed with the ERC a Compliance and Submission attaching the settlement agreement on June 28, 2022. As at September 30, 2026, the case is still pending as the ERC has not issued any resolution granting the Joint Motion to Dismiss filed by the parties.

The total amount consigned with the RTC Pasig amounting to P491,242 was released to TPEC on December 20, 2022.

vi. Claims for Contract Price Adjustments on Certain "Fixed Price" PSAs

On October 22, 2019, SPI and SPPC each filed before the ERC a Joint Application with Meralco for the approval of their respective PSA with Meralco with prayer for provisional authority (the "Application"). The PSA of SPPC covers the supply of 670 MW baseload capacity to Meralco ("SPPC PSA") while the PSA of SPI covers the supply of 330 MW baseload capacity to Meralco ("SPI PSA") both for a period of 10 years. The SPPC PSA and SPI PSA were awarded by Meralco to each of SPPC and SPI after they emerged as the winning bidders in the competitive selection process ("CSP") conducted by Meralco in September 2019.

On March 16, 2020, the ERC released Orders both dated December 10, 2019, granting provisional authority to implement the SPPC PSA and SPI PSA.

On May 11, 2022, SPPC and SPI each filed a Joint Motion for Price Adjustment with Meralco (the "Joint Motion") seeking approval from the ERC to temporarily increase the contract price under the SPPC PSA and SPI PSA for a period of 6 months, to recover incremental fuel costs covering January to May 2022 billing periods arising from a Change in Circumstances (CIC) (as defined in the PSAs) to be collected over a period of 6 months.

On September 29, 2022, the ERC denied the foregoing Joint Motions filed by each of SPPC and SPI with Meralco requesting for the proposed price adjustments (the "September 29, 2022 ERC Orders").

SPPC Petition
On November 10, 2022, SPPC filed with the CA a Petition for Certiorari under Rule 65 with Application for the Issuance of a TRO and/or Writ of Preliminary Injunction to annul, reverse and set aside the September 29, 2022 ERC Order for SPPC (the "SPPC CA Petition"). The CA issued a TRO on December 2, 2022, and a writ of preliminary injunction on February 23, 2023.

On July 10, 2023, SPPC received the CA's Joint Decision dated June 27, 2023 (the "June 27, 2023 CA Decision") which granted the consolidated petitions of SPPC and SPI. The CA: (i) annulled and set aside the September 29, 2022 ERC Orders for having been issued with grave abuse of discretion; (ii) granted the Joint Motions for Price Adjustment with Provisional Authority and/or Interim Relief, without prejudice to any further requests for price adjustments for June 2022 onwards (for SPPC, from June 2022 to January 25, 2023 [date of writ of preliminary injunction] and for SPI, from June 2022 to the date of the finality of the June 27, 2023 CA Decision); and (iii) made permanent the writ of preliminary injunction issued in favor of SPPC. The Motions for Reconsideration filed by NASECORE and the ERC were also subsequently denied.

The June 27, 2023 CA Decision was later on confirmed by the SC in its resolutions dated April 3, 2024 and July 10, 2024. An Entry of Judgment has already been issued for this case.

Pursuant thereto, SPPC filed with the ERC a Motion for Issuance of Writ of Execution to enforce the June 27, 2023 CA Decision on October 10, 2024 and a Motion to Resolve (re: Motion for Issuance of Writ of Execution) on February 6, 2025.

The ERC issued its Order on August 22, 2025, which granted SPPC's Motions for Issuance of Writ of Execution (Re: June 27, 2023 CA Decision). The order allowed SPPC to recover from Meralco the price adjustments prayed for in its motions and authorized Meralco to collect the adjustments from its customers over a period of 6 months from the September 2025 customer billing period. As at February 25, 2026, Meralco has fully remitted its payment of the price adjustments to the Parent Company.

Related thereto, pursuant to the June 27, 2023 CA Decision, SPPC filed on November 21, 2024, a Motion for Price Adjustment with the ERC, for its CIC claim for the period May 26, 2022 to December 6, 2022 pursuant to the SPPC PSA (the "2nd SPPC CIC Claim"), with its claims anchored on essentially the same legal bases established or ruled on by the CA in its June 27, 2023 CA Decision and confirmed by the SC with finality.

On January 27, 2026, SPPC received a copy of the ERC's Order dated January 26, 2026 which granted the 2nd SPPC CIC Claim. Accordingly, the Group recognized this as revenues and receivables as at and for the period ended September 30, 2026 (see Notes 8 and 13).

SPI Petition

On November 10, 2022, SPI also filed with the CA a Petition for Certiorari under Rule 65 with Application for the Issuance of a TRO and/or Writ of Preliminary Injunction to annul, reverse and set aside the September 29, 2022 ERC Order for SPI (the "SPI CA Petition").

On January 13, 2023, the CA (i) denied SPI's prayer for the issuance of a TRO and/or writ of preliminary injunction, and (ii) granted the consolidation of the SPI CA Petition with the SPPC CA Petition.

On July 10, 2023, SPI received the CA's Joint Decision dated June 27, 2023 (the "June 27, 2023 CA Decision") which granted the consolidated petitions of SPPC and SPI. The CA: (i) annulled and set aside the September 29, 2022 ERC Orders for having been issued with grave abuse of discretion; (ii) granted the Joint Motions for Price Adjustment with Provisional Authority and/or Interim Relief, without prejudice to any further requests for price adjustments for June 2022 onwards (for SPPC, from June 2022 to January 25, 2023 [date of writ of preliminary injunction] and for SPI, from June 2022 to the date of the finality of the June 27, 2023 CA Decision); and (iii) denied SPI's Motion for Partial Reconsideration of the January 13, 2023 CA Resolution and its application for the issuance of a writ of preliminary injunction for being moot and academic.

The June 27, 2023 CA Decision was later on confirmed by the SC in its Resolution dated April 3, 2024 and July 10, 2024. An Entry of Judgment has already been issued for this case.

Pursuant thereto, SPI filed with the ERC a Motion for Issuance of Writ of Execution to enforce the June 27, 2023 CA Decision on October 10, 2024 and a Motion to Resolve (re: Motion for Issuance of writ of Execution) on February 6, 2025.

The ERC issued its Order on August 22, 2025~~,~~ which granted SPI's Motions for Issuance of Writ of Execution (Re: June 27, 2023 CA Decision). The order allowed SPI to recover from Meralco the price adjustments prayed for in its motions and authorized Meralco to collect the adjustments from its customers over a period of 6 months from the September 2025 customer billing period. As at February 25, 2026, Meralco has fully remitted its payment of the price adjustments to SPI.

Related thereto, pursuant to the June 27, 2023 CA Decision, SPI filed a Motion for Price Adjustment with the ERC on November 21, 2024, for its CIC claim for the period June 2022 to July 2023 pursuant to the SPI PSA (the "2nd SPI CIC Claim"), with its claims anchored on essentially the same legal bases established or ruled on by the CA in its June 27, 2023 CA Decision and confirmed by the SC with finality.

On January 27, 2026, SPI received a copy of the ERC's Order dated January 26, 2026 which granted the 2nd SPI CIC Claim.

In view of the dilution of the Parent Company's equity interest in SPPC from 100% to 33%, following the Chromite Transaction in January 2025 but prior to the final resolution of these cases by the relevant court and/or the ERC, the parties to the Chromite Transaction acknowledged and agreed that the Parent Company shall be entitled, pursuant to the relevant Chromite Transaction documents, to the economic benefits, rights of recovery, and corresponding potential equivalent exposure arising from the aforesaid cases and claims involving SPPC.

b. Impact of the United States of America-Israel-Iran Conflict

The escalation of geopolitical tensions in the Middle East, following the joint attack of the United States of America (US) and Israel on Iran on February 28, 2026, has resulted in significant volatility in global oil and gas markets. This market instability has been driven primarily by concerns over potential supply chain disruptions arising from the closure of the Strait of Hormuz - a critical transit route through which a substantial portion of the world's oil and gas supply passes. In light of these developments, management continues to closely monitor the situation and assess its potential and unmitigated implications, if any, on the Group's operations and financial position.

As of date, the Group's power generation costs from its coal and hydroelectric power plants remain largely unaffected by the surge in global oil and gas prices. This resilience is attributable to the Group's diversified fuel sourcing strategy, with coal procured from Indonesian as well as local suppliers of indigenous coal resources, mostly under long-term contracts that provide supply and price security. More importantly, most of the Group's PSAs include fuel price and foreign exchange movement passthrough provisions, which further mitigate exposure to market volatility on a physical basis. The Group also engages in short-term plain vanilla derivatives such as non-deliverable forwards to hedge a significant portion of its foreign exchange exposure for supplier payments denominated in US Dollars.

SPPC and EERI, which operates power plants that run primarily on LNG, have PSAs for a total of 2,400 MW in contracted capacities with Meralco that contain similar provisions that hedge the exposure of these companies from adverse movements in LNG prices and foreign exchange rates, as well as take-or-pay provisions in case of derations in their nominated capacities below contemplated load factors.

In view of the foregoing, the Group, with its diversified portfolio and fuel sourcing, believes that the ongoing US-Israel-Iran conflict has no adverse net financial impact to its financial condition and results of operations. It shall nevertheless continue to monitor ensuing developments in the global commodity and financial markets and shall evaluate and take corrective action as necessary.

c. Events After the Reporting Date

Sale of Common Shares in Meralco by the Parent Company

October 1, 2026, the BOD of the Parent Company approved the sale of up to 46,596,596 common shares in Meralco.

On October 1 and October 6, 2026, the Parent Company agreed to sell 21,414,758 shares to Metro Pacific Investments Corporation and 3,767,080 shares to Mr. Manuel V. Pangilinan, representing approximately 1.90% and 0.33% of Meralco's total issued and outstanding common shares, respectively. The shares were sold at P580.99 per share through special block sales at the PSE on October 8 and October 9, 2026, respectively.

Redemption of SPCS

On October 1, 2026, the BOD of the Parent Company approved the redemption on December 9, 2026 of all of the outstanding SPCS issued on June 9, 2021.

d. Supplemental Cash Flows Information

The following table summarizes the changes in liabilities and equity arising from the financing activities, including both changes arising from cash flows and non-cash changes:

	Loans Payable	Long-term Debt	Lease Liabilities	SPCS	Total
Balance as at January 1, 2026 (Audited)	**P33,000,000**	**P285,135,641**	**P29,700,875**	**P160,789,623**	**P508,626,139**
Changes from Financing Activities					
Proceeds from:					
Borrowings	**107,000,000**	**128,001,551**	**-**	**-**	**235,001,551**
Issuance of SPCS, net of exchange and tender offers	**-**	**-**	**-**	**17,453,697**	**17,453,697**
Payments of:					
Borrowings	**(107,000,000)**	**(38,943,605)**	**-**	**-**	**(145,943,605)**
Lease liabilities	**-**	**-**	**(5,083,414)**	**-**	**(5,083,414)**

Total Changes from Financing Activities	(7,412,300)	7,648,491	(8,351,595)	1,961,890	56,813,747	15,608,496	(58,856,693)	7,412,036
Effect of changes in foreign exchange rates	61,875	809,084	(45,663)	-	-	-	-	825,296
Other changes	(5,000,000)	721,583	(538,823)	-	-	2,162,171	1,557,375	(1,097,694)
Balances as at September 30, 2025 (Unaudited)	P29,000,000	P287,117,049	P22,469,185	P4,785,494	P104,895,528	P168,965,532	P88,679,795	P705,912,583

Other changes pertain to deconsolidated loans payable of SPPC in 2025 and additions for new lease agreements, amortizations of lease liabilities and debt-issue costs of long-term debt and the net effect of issuance and redemption of perpetual capital securities in 2026 and 2025 (see Notes 6, 10 and 12).

e. Commitments

The outstanding purchase commitments of the Group amounted to P69,500,121 and P69,417,939 as at September 30, 2026 and December 31, 2025, respectively.

The Group's material commitments for capital expenditure consist mainly of construction of power plants, mostly utilizing high efficiency low emission technologies, in line with the Group's expansion projects, and acquisition, upgrade or repair of plant and equipment needed for normal operations of the business. These will be funded by available cash and proceeds from short-term loans, long-term debt and issued capital securities.

f. There are no unusual items as to the nature and amount affecting assets, liabilities, equity, net income or cash flows, except those stated in the Management's Discussion and Analysis of Financial Position and Financial Performance.

g. There were no material changes in the estimates of amounts reported in prior financial year.

h. Certain accounts in prior year have been reclassified for consistency with the current period presentation to provide more reliable and relevant information and better referencing to other information in the notes to consolidated financial statements. These reclassifications had no effect on the reported financial performance for any period.

SAN MIGUEL GLOBAL POWER HOLDINGS CORP. AND SUBSIDIARIES
DISCUSSION OF THE GROUP'S FINANCIAL SOUNDNESS INDICATORS

The following are the major performance measures that San Miguel Global Power Holdings Corp. and Subsidiaries (the "Group") use. Analyses are employed by comparisons and measurements based on the financial data as at September 30, 2026 and December 31, 2025 for liquidity, solvency and profitability ratios and for the periods ended September 30, 2026 and 2025 for operating efficiency ratios.

LIQUIDITY RATIO

$$\text{Current Ratio} = \frac{\text{Current Assets}}{\text{Current Liabilities}}$$

(in Millions Peso)	**September 30, 2026**	December 31, 2025
(A) Current Assets	**285,149**	240,253
(B) Current Liabilities	**168,438**	183,457
Current Ratio (A) / (B)	**1.69**	1.31

SOLVENCY RATIO

$$\text{Net Debt-to-Equity* Ratio} = \frac{\text{Net Debt}}{\text{Total Equity}}$$

Per relevant Loan Covenants of San Miguel Global Power

(in Millions Peso)	**September 30, 2026**	December 31, 2025
(A) Net Debt *(1)*	**188,778**	142,739
(B) Total Equity *(2)*	**466,010**	401,744
Net Debt-to-Equity Ratio (A) / (B)	**0.41**	0.36

**All items are net of amounts attributable to ring-fenced subsidiaries*

(1) Consolidated net total debt plus total Power Sector Assets and Liabilities Management Corporation (PSALM) lease liabilities.
(2) Consolidated total equity.

Asset-to-Equity Ratio = **Total Assets / Total Equity**

	Conventional		***Adjusted*** [3]	
(in Millions Peso)	**September 30, 2026**	December 31, 2025	**September 30, 2026**	December 31, 2025
(A) Total Assets	**1,036,615**	891,621	**1,009,931**	864,184
(B) Total Equity	**502,569**	420,734	**502,569**	420,734
Asset-to-Equity Ratio (A) / (B)	**2.06**	2.12	**2.01**	2.05

[3] Net carrying amount of the Independent Power Producer Administration (IPPA) power plant, in relation to the IPPA Agreement of San Roque Hydropower Inc. with PSALM, was omitted in total assets as this power plant asset was capitalized with corresponding lease liabilities. As at September 30, 2026 and December 31, 2025, the net carrying amount of the IPPA power plant asset amounted to P26,684 million and P27,437 million, respectively.

PROFITABILITY RATIO

Return on Equity = **Net Income / Total Equity**

(in Millions Peso)	**September 30, 2026**	December 31, 2025
(A) Net Income [4]	**48,528**	48,306
(B) Total Equity	**502,569**	420,734
Return on Equity (A) / (B)	**9.7%**	11.5%

[4] Annualized for quarterly reporting.

Interest Coverage Ratio = **Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) / Interest Expense**

Per relevant Loan Covenants of San Miguel Global Power

(in Millions Peso)	**September 30, 2026**	December 31, 2025
(A) EBITDA [5]	**54,372**	39,229
(B) Interest Expense [6]	**16,610**	15,232
Interest Coverage Ratio (A) / (B)	**3.27**	2.58

[5] Most recent four quarterly period consolidated EBITDA (gross of PSALM payments and excluding amounts attributable to ring-fenced subsidiaries).

[6] Most recent four quarterly period consolidated interest expense (excluding amounts attributable to ring-fenced subsidiaries).

OPERATING EFFICIENCY

Volume Growth (Decline) = Current Period Offtake Volume / Prior Period Offtake Volume - 1

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL POSITION AND FINANCIAL PERFORMANCE

INTRODUCTION

The following discussion should be read in conjunction with the attached unaudited consolidated financial statements of San Miguel Global Power Holdings Corp. ("San Miguel Global Power" or "Parent Company") and its subsidiaries (collectively referred to as the "Group") as at and for the period ended September 30, 2026 (with comparative figures as at December 31, 2025 and for the period ended September 30, 2025). All necessary adjustments have been made to present fairly the consolidated financial position, financial performance and cash flows of the Group as at September 30, 2026, and for all the other periods presented. Certain information and footnote disclosure normally included in the audited consolidated financial statements prepared in accordance with Philippine Financial Reporting Standards have been omitted.

I. 2026 SIGNIFICANT TRANSACTIONS AND MAJOR DEVELOPMENTS

SAN MIGUEL GLOBAL POWER

- **ISSUANCE AND REDEMPTION OF SENIOR PERPETUAL CAPITAL SECURITIES (SPCS)**

  On January 20, 2026, San Miguel Global Power completed the issuance of US$300 million SPCS, at an issue price of 100.00% of principal amount, with an initial rate of distribution of 8.375% per annum and step-up date of January 20, 2031.

  The US$300 million SPCS was listed on the Singapore Exchange Securities Trading Limited (SGX-ST) on January 21, 2026.

  The net proceeds were used for the redemption of the remaining securities out of the US$600 million SPCS issued in January 2020, amounting to US$300.42 million, pursuant to the terms and conditions of the securities.

- **ISSUANCE OF SPCS, PARTLY APPLIED FOR EXCHANGE AND TENDER OFFERS**

  On June 17, 2026, San Miguel Global Power issued US$430 million SPCS (the "Securities"), at an issue price of 100%, with an initial distribution rate of 8.875% per annum, payable pursuant to the terms of the agreement. On the same day, the Securities were used in part for the exchange of certain existing SPCS amounting to US$271 million (the "Exchange Offers") and the repurchase of certain existing SPCS amounting to US$154 million (the "Tender Offers") pursuant to the Exchange Offers and Tender Offers that were announced on the SGX-ST website on June 2, 2026. The Securities were listed on the SGX-ST on June 18, 2026.

The remaining proceeds of US$5 million were used for the payment of: (i) costs and expenses related to the issuance of the securities, (ii) accrued distribution in respect of the securities that were accepted for exchange and repurchase, and (iii) for pre-development costs of solar and hydropower energy projects and capital expenditures related to battery energy storage system (BESS) projects.

- **AVAILMENT OF LONG-TERM DEBT**

On March 31, 2026, San Miguel Global Power availed a P20,000 million term loan with a local bank. The loan is subject to fixed interest rate and payable in March 2033.

Net proceeds of the loan are being used to partially finance capital expenditures and for general corporate requirements pertaining to the pipeline of renewable energy projects awarded to the Group under the Department of Energy's Green Energy Auction Program (GEAP).

On April 8, 2026, San Miguel Global Power availed of a US$400 million term loan from a facility agreement executed on March 26, 2026. On June 26, 2026, an additional US$100 million was availed from the same credit facility. The loan is subject to a floating interest rate based on Secured Overnight Financing Rate plus margin and will mature in March 2029.

The proceeds of the loan are being used for financing and/or refinancing the design, development, construction, installation, and operation of renewable energy projects, including hydro, wind, and solar power plants awarded to the Group pursuant to the GEAP.

- **ISSUANCE OF FIXED RATE BONDS SERIES N-O-P**

On April 17, 2026, San Miguel Global Power issued and listed with the Philippine Dealing & Exchange Corp. a total of P30,000 million fixed rate bonds, approved by the Philippine Securities and Exchange Commission on March 17, 2026.

The bonds are comprised of P14,607 million Series N Bonds due 2031, P5,505 million Series O Bonds due 2033 and P9,888 million Series P Bonds due 2036, with interest rates per annum of 7.6264%, 7.8682% and 8.1761%, respectively.

The proceeds from the issuance of the bonds were used to: (i) refinance debt obligations; and (ii) partially fund the Group's pipeline of renewable energy projects.

- **SETTLEMENT OF US$300 MILLION TERM LOAN**

On March 9, 2026, San Miguel Global Power fully settled its US$300 million term loan drawn in tranches in March 2021 and June 2021 from a foreign bank. The payment was funded by cash generated from operations.

- **REDEMPTION OF SERIES J AND SERIES C BONDS**

On April 24 and July 13, 2026, San Miguel Global Power redeemed its Series J and Series C Bonds, amounting to P6,923 million and P4,756 million, respectively, upon their maturity, pursuant to the terms and conditions of the bonds. The Series J Bonds formed part of the P30,000 million Series H-I-J fixed rate bonds issued in April 2019, while the Series C Bonds formed part of the P15,000 million Series A-B-C fixed rate bonds issued in July 2016.

AVAILMENT OF P50,000 MILLION TERM LOAN BY MASINLOC POWER CO. LTD. (MPCL)

On July 17, 2026, MPCL availed of a P50,000 million term loan from a facility agreement with various local banks executed on July 9, 2026. The loan is subject to a fixed interest rate and with maturities up to October 2035. The proceeds from the loan are being used to settle obligations with the contractors and suppliers in relation to the Masinloc expansion project, and to fund remaining project costs, transaction costs, fees and expenses in connection with or arising from the establishment of the said project.

PAYMENT OF MATURING LONG-TERM DEBTS

In the first three quarters of 2026, Limay Power Inc. (LPI), SMGP BESS Power Inc. (SMGP BESS), Mariveles Power Generation Corporation (MPGC), Malita Power Inc. (MPI), MPCL, and San Miguel Global Power paid a total of P9,414 million of their scheduled long-term debt principal amortizations pursuant to the terms and conditions of their respective facility agreements. The payments were funded by cash generated from operations.

ISSUANCE OF REDEEMABLE PERPETUAL CAPITAL SECURITIES (RPCS) BY SMC GLOBAL LIGHT AND POWER CORP. (SGLPC)

In May 2026, SGLPC issued a US$500 million RPCS, with a prescribed initial distribution rate per annum, payable pursuant to the terms of the agreement.

ISSUANCE OF REDEEMABLE PREFERRED SHARES (RPS) BY GP RENEWABLE POWER CORP. (GP RENEWABLE)

In March and May 2026, GP Renewable issued RPS to South Premiere Power Corp. (SPPC) and Excellent Energy Resources Inc. (EERI) amounting to P14,850 million and P21,450 million, respectively, which are being used for the Group's renewable energy projects and for general corporate purposes.

UPDATE ON CLAIMS FOR CONTRACT PRICE ADJUSTMENTS ON CERTAIN "FIXED PRICE" POWER SALES AGREEMENTS (PSAs)

On January 27, 2026, SPPC and Sual Power Inc. (SPI) received copies of the Energy Regulatory Commission (ERC) Orders dated January 26, 2026, which granted their respective Change in Circumstance (CIC) Claims, allowing SPPC and SPI to recover incremental and uncontemplated power supply cost from Manila Electric Company (Meralco) the amount of P15,850 million and P13,362 million, respectively, over a period of 36 months commencing from the March 2026 billing period.

As at February 25, 2026, Meralco has completed the remittances of its payments for the initial CIC Claims totaling P5,148 million to SPI and to San Miguel Global Power (for SPPC's claim) in accordance with the ERC Orders promulgated on August 22, 2025.

In view of the dilution of San Miguel Global Power's equity interest in SPPC from 100% to 33%, following the Chromite transaction in January 2025 but prior to the final resolution of the pertinent case by the relevant court and/or the ERC, the parties to the Chromite transaction acknowledged and agreed that San Miguel Global Power shall be entitled, pursuant to relevant Chromite transaction documents, to the economic benefits, rights of recovery, and corresponding potential equivalent exposure arising from the above claims.

To consolidate all receivables arising from such changes in circumstances, SPI also assigned in favor of San Miguel Global Power all its rights and interests in the aforesaid claims in March 2026.

EVENTS AFTER THE REPORTING DATE

- SALE OF COMMON SHARES IN MERALCO BY SAN MIGUEL GLOBAL POWER

On October 1, 2026, the Board of Directors of San Miguel Global Power approved the sale of up to 46,596,596 common shares in Meralco (the "Meralco shares").

On October 1 and October 6, 2026, San Miguel Global Power agreed to sell 21,414,758 shares to Metro Pacific Investments Corporation and 3,767,080 shares to Mr. Manuel V. Pangilinan, representing approximately 1.90% and 0.33% of Meralco's total issued and outstanding common shares, respectively. The shares were sold at P580.99 per share through special block sales at the Philippine Stock Exchange, Inc. on October 8 and October 9, 2026, respectively.

II. FINANCIAL PERFORMANCE

2026 vs. 2025

	For the Periods Ended September 30		Horizontal Analysis Increase (Decrease)		Vertical Analysis	
In Millions	**2026**	2025	Amount	%	**2026**	2025
Revenues	**P149,077**	P118,795	P30,282	25%	**100%**	100%

Net income	**P42,620**	P42,399	P221	1%	**29%**	36%

Revenues

The Group's consolidated revenues for the first three quarters of 2026 amounted to P149,077 million, higher by 25% from P118,795 million from same period in 2025. The increase in revenues primarily represents the following: (i) contributions from new PSAs for a combined contracted capacity of 1,140 megawatts (MW) from the Mariveles, Masinloc, and San Roque Hydroelectric Power Plants that took effect in June, August, and September 2025, respectively; (ii) revenues from sales to the Reserve Market of its 5 BESS facilities which commenced operations in 2025; and (iii) previously unrecognized revenues for the recovery of incremental power supply costs incurred in 2022. This was partially offset by lower revenues from the following: (i) Ilijan and Batangas Power Plants which contributed a month's worth of revenues in 2025 prior to its deconsolidation in January 2025, and (ii) Sual and Limay Power Plants due to the cessation of PSAs with certain distribution utilities (DUs) in January 2026 and the first half of 2025, respectively.

Costs of Power Sold
Costs of power sold increased to P88,371 million for the first three quarters of 2026, which is 13% higher than the P77,977 million incurred for the same period in 2025. This increase was attributable to the following: (i) higher power purchases during the period in order to meet customer requirements; (ii) higher generation costs, as global coal prices averaged at US$130 per metric ton (MT) during the period – up from the US$105/MT (in GC Newcastle terms) for the same period in 2025; and (iii) higher plant operations and maintenance costs incurred by the Mariveles and Masinloc Power Plants.

Selling and Administrative Expenses
Selling and administrative expenses rose by 22% or P1,303 million, from P5,984 million in the first three quarters of 2025 to P7,287 million in 2026 for the same period. The increase was primarily due to incremental operating expenses from the operations of the aforesaid 5 BESS facilities, additional allowance from probable losses recognized on trade receivables, and higher personnel-related expenses necessary for the continuing business expansion of the Group.

Income from Operations
Consolidated income from operations of P53,419 million for the first three quarters of 2026 increased by 53% from the same period in 2025, driven by improved margins on contracted capacities, higher contributions from BESS facilities mainly through sales in the Reserve Market, as well as the revenues from the aforesaid recoveries of previously incurred power supply costs.

Interest Expense and Other Financing Charges
Interest expense and other financing charges went up by 18% to P22,174 million for the first three quarters of 2026. The increase was mainly due to the bank service charges incurred for the sale of certain trade receivables to a local bank during the period, higher interest expenses on short-term loans of SPI, and new long-term borrowings of San Miguel Global Power availed in 2026. This was partly mitigated by lower interest expense on the declining principal balances of the Group's project financing debts and finance lease liabilities owed to the Power Sector Assets and Liabilities Management Corporation (PSALM), with only the Independent Power Producer Administrator (IPPA) Agreement of San Roque Hydropower Inc. (SRHI) outstanding.

Interest Income
Interest income amounted to P4,173 million for the first three quarters of 2026. The higher number was due primarily to the increase in outstanding short-term placements of the Group compared to the same period in 2025.

Equity in Net Earnings of Associates and Joint Ventures - net
Equity in net earnings of associates and joint ventures reached P7,490 million in the first three quarters of 2026 from P6,677 million recorded for the same period in 2025. This improvement was mainly due to the full nine-month share in the net earnings of SPPC and EERI following the dilution of the Group's equity interests thereon from 100% to 33% on January 27, 2025.

Other Income - net
Other income - net declined to P3,015 million for the first three quarters of 2026 from P21,179 million reported for the same period in 2025. This was mainly attributable to the P21,933 million revaluation gain recognized in January 2025 on account of the fair valuation of the 33% equity interest retained in SPPC, EERI, and Ilijan Primeline Industrial Estate Corp. (IPIEC). This was partly offset by foreign exchange gains from the revaluation of the Group's higher US Dollar-denominated monetary assets which mitigated the impact of the foreign exchange losses from the revaluation of the Group's US Dollar-denominated monetary liabilities due to the continued depreciation of the Philippine Peso against the US Dollar in 2026.

Income Tax Expense
Income tax expense amounted to P3,303 million for the first three quarters of 2026. The lower number was primarily due to the recognition of higher deferred tax benefits on unrealized foreign exchange losses during the period.

Net Income
Consequently, the consolidated net income of the Group for the first three quarters of 2026 increased by 1% to P42,620 million from P42,399 million reported for the same period in 2025.

The following are the highlights of the performance of the individual operating business segments:

1. **POWER GENERATION**

   a. **SPI, owner of Sual Power Plant**

      For the first three quarters of 2026, Sual Power Plant recorded net generation of 4,298 gigawatt hours (GWh), corresponding to a 59% net capacity factor, which was 28% higher than the same period in 2025. The increase was primarily driven by improved plant availability.

      Revenues declined by 5% to P26,388 million from P27,724 million in 2025. The decrease was mainly attributable to the reduced average realization prices. This was partially offset by decrease in variable costs. Thus, contribution margin remains at 32%.

      As a result of the foregoing, operating income declined by 18% to P4,281 million from P5,201 million during the same period in 2025.

   b. **LPI, owner of Limay Greenfield Power Plant**

      For the first three quarters of 2026, the Limay Greenfield Power Plant recorded net generation of 2,659 GWh, at 76% net capacity factor, representing a 13% increase from the 2,353 GWh generated during the same period in 2025. The improvement was primarily due to lower derated hours in 2026 coupled with higher plant dispatch. Of the total net generation, 1,176 GWh was supplied to LPI's power generation customers, while the remaining output was allocated to its retail electricity supply (RES) business serving its contestable customers.

      On the other hand, total offtake volume was down to 1,322 GWh, a 29% decrease from the same period in 2025. This was mainly attributable to the expiration of its EPSA with Meralco and lower spot sales volume. As a result, revenues declined by 8% from P9,608 million in the first three quarters of 2025 to P8,798 million in the corresponding period in 2026.

      Nevertheless, operating income of P2,040 million for the first three quarters of 2026 was 22% higher than the P1,678 million posted in the same period in 2025, primarily due to better margins from improved average realization price.

   c. **MPI, owner of Davao Greenfield Power Plant**

      For the first three quarters of 2026, Davao Greenfield Power plant's net generation registered at 1,338 GWh, at net capacity factor of 76%. This was 13% higher compared to the same period in 2025. The improvement was driven by higher overall customer nominations. Of the total net generation, 1,328 GWh was dispatched to MPI's power generation customers, while the remaining output was allocated to its RES business serving its contestable customers.

Revenues grew by 35% to P9,571 million from the same period in 2025, mainly due to higher offtake volumes and increased average realization price. As a result, operating income rose by 23% to P2,221 million.

d. **MPCL, owner of Masinloc Power Plant**

Net generation from the Masinloc Power Plant's operating units totaled 4,411 GWh for the first three quarters of 2026. Of this output, 4,276 GWh or 97% was supplied to power generation customers while the rest was discharged to contestable customers and for its BESS requirements. Total net generation was 4% higher than the 4,233 GWh generated during the same period in 2025.

Total offtake volume also went up to 6,500 GWh, primarily driven by higher customer nominations. As a result, revenues increased by 34% to P36,196 million. Meanwhile, operating income declined by 22% to P4,249 million for the first three quarters of 2026 compared to the same period in 2025 mainly due to higher power purchase volumes and cost required to supply to both existing and newly contracted customers.

e. **MPGC, owner of Mariveles Greenfield Power Plant**

For the first three quarters of 2026, the Mariveles Greenfield Power Plant recorded net generation of 2,854 GWh, equivalent to an 81% net capacity factor, representing a 3% increase from the same period in 2025 due to improved plant availability and higher bilateral nominations. Total offtake volume likewise increased by 3% to 2,877 GWh, primarily driven by higher sales to Meralco under the 300 MW PSA, which took effect on June 2, 2025, offsetting lower sales to affiliate generators and the spot market.

Consequently, revenues increased by 24% to P18,256 million from P14,668 million for the same period in 2025, mainly driven by higher average realization price and increased offtake volume, while operating income rose by 63% to P6,063 million from P3,730 million during the same period in 2025.

f. **SRHI, Independent Power Producer Administrator of San Roque Hydroelectric Power Plant**

For the first three quarters of 2026, the San Roque Hydroelectric Power Plant recorded net generation of 740 GWh, representing a net capacity factor of 33% and a 20% decline from the same period in 2025. The decrease was primarily attributable to shorter operating hours resulting from lower water reservoir levels. Despite the reduced output, total offtake volume increased by 25% to 1,720 GWh from the same period in 2025. This growth was mainly driven by the implementation of the 340 MW Meralco PSA which commenced in September 2025.

As a result, revenues rose by 47% to P9,635 million from P6,566 million during the first three quarters of 2025, on account of higher sales volume and an improved average realization price. Meanwhile, operating income only increased slightly by 3% to P2,094 million from P2,036 million recorded for the same period in 2025 due to higher power purchases supplied to its bilateral customer.

2. **RETAIL AND OTHER POWER-RELATED SERVICES**

a. **LPI - RES**

For the first three quarters of 2026, total offtake volume declined by 5% to 1,817 GWh, from 1,918 GWh recorded for the same period in 2025, mainly due to lower customer nominations. Revenues, however, increased by 2% to P12,308 million from P12,028 million in the first three quarters of 2025, primarily driven by higher average realization price.

Operating income likewise rose by 2% to P1,615 million from P1,576 million reported in the same period in 2025. The increase was driven by improved margins from the higher average realization price.

b. **MPI - RES**

For the first three quarters of 2026, MPI's RES segment, following ERC's approval of its RES license in August 2025, recorded total offtake volume of 10 GWh, revenues of P88 million and an operating income of P50 million.

c. **MPCL - RES and BESS**

For the first three quarters of 2026, revenues (consisting of revenues from RES contracts and revenues earned from ancillary services contracts and Reserve Market sales generated from the 30 MWh Masinloc BESS) amounted to P9,358 million which represents a 15% increase from the same period in 2025. Despite the increase in revenues, operating income declined by 27% to P1,250 million from the same period in 2025, as a result of higher operating expenses.

d. **SMGP Kabankalan Power Co. Ltd. (SMGP Kabankalan, owner of Kabankalan BESS Phase I and II)**

For the first three quarters of 2026, revenues and operating income both increased by 22% and 5% to P1,193 million and P782 million, respectively, compared to the same period in 2025. The improvement was primarily driven by the commencement of operations of the 10 MWh Kabankalan BESS Phase II in March 2025 that was offered to the Reserve Market during the period.

e. **SMGP BESS, owner of 13 BESS Facilities with combined installed capacity of 440 MWh**

For the first three quarters of 2026, SMGP BESS generated revenues of P18,308 million, representing a 58% increase compared with the same period in 2025. This growth was primarily driven by higher average realization prices and increased participation in the Reserve Market, contributing to improved profitability. Operating income likewise increased by 49% to P13,122 million, from P8,814 million in the same period of 2025.

2025 vs. 2024

	For the Periods Ended September 30		Horizontal Analysis Increase (Decrease)		Vertical Analysis

Net income	**P42,399**	P13,465	P28,934	215%	**36%**	9%

Revenues

The Group's consolidated revenues for the first three quarters of 2025 amounted to P118,795 million, lower by 23% from the P153,592 million recognized in the same period in 2024. The decline was due primarily to the aforementioned dilution of its equity interest in and resulting deconsolidation of SPPC (owner of the 1,278 MW Ilijan Power Plant), following the completion of the Chromite Transaction. In addition, the decline in revenues reflects a downward adjustment in fuel tariffs to bilateral customers as coal fuel prices went down by 22% with GC Newcastle prices declining from an average of US$134/MT for the first nine months of 2024 to US$104/MT for the same period in 2025. These were compensated by the revenue contributions from the following: (a) the full nine-month operations of the 4 generation units of the 600 MW Mariveles Greenfield Power Plant and the 3 BESS facilities, with a combined capacity of 110 MWh, which started commercial operations in March 2024; (b) additional 5 BESS facilities, with a total capacity of 140 MWh, that began commercial operations in the first half of 2025; and (c) Units 1 and 2 of EERI's Batangas Combined Cycle Power Plant (BCCPP, with a net capacity of 425 MW each), which is 33% owned by the Group following the aforesaid dilution, that were declared operational on December 26, 2024 and January 7, 2025, respectively.

Costs of Power Sold

Costs of power sold decreased to P77,977 million for the first three quarters of 2025, which is 32% lower than the P114,154 million incurred for the same period in 2024. This reduction was attributable to the following: (i) deconsolidation of SPPC which contributed a net decrease in cost of power sold by P32,122 million; and (ii) lower generation costs, as global coal prices averaged at US$104/MT for the first three quarters of 2025 – down from the US$134/MT (in GC Newcastle terms) for the same period in 2024. The decline was countered by the increase in cost of power sold with the full nine-month operations of all units of the Mariveles Greenfield Power Plant, incremental depreciation expense from the additional 8 BESS facilities, and the one-month operation of EERI's BCCPP prior to its deconsolidation.

Income from Operations
Consolidated income from operations of P34,834 million for the first three quarters of 2025 increased by 4% from the same period in 2024. The increase was mainly driven by: (i) improved margins from contracted capacities with fuel passthrough arrangements for most of its bilateral customers, including PSAs with Meralco, (ii) additional contributions from BESS facilities - through sales in the reserves market and ancillary services rendered for National Grid Corporation of the Philippines, and partially offset by (iii) the deconsolidation of the Ilijan Power Plant.

Such consolidated income from operations does not include the share in the net earnings of SPPC and EERI amounting to P5,862 million to date, which the Group continue to recognize from its remaining 33% interests in these gas power generation assets as part of its portfolio even with the aforesaid deconsolidation.

Interest Expense and Other Financing Charges
Interest expense and other financing charges went up by 25% to P18,800 million for the first three quarters of 2025. This was mainly due to the P32,500 million and P9,400 million term loans drawn in tranches by MPGC in December 2024 and March 2025, respectively. This was partly mitigated by lower interest expense on the declining principal balances of the Group's finance lease liabilities owed to the PSALM, with only the IPPA Agreement of SRHI outstanding, in view of the full settlement of the finance lease liabilities arising from the Sual IPPA Agreement in October 2024.

Interest Income
Interest income amounted to P2,737 million for the first three quarters of 2025. The higher number was due primarily to the increase in outstanding short-term placements of the Group compared to the same period in 2024.

Equity in Net Earnings of Associates and Joint Ventures - net
Equity in net earnings of associates and joint ventures reached P6,677 million in the first three quarters of 2025 from the P236 million recorded in the same period in 2024. This improvement was mainly due to the share in the net earnings of SPPC, EERI, and IPIEC - following the dilution of the Group's equity interests thereon from 100% to 33%, as well as the improved financial performance of Angat Hydropower Corporation.

Other Income (Charges) - net
Other income-net amounted to P21,179 million for the first three quarters of 2025, a significant turnaround from the P532 million other charges-net registered for the same period in 2024. This surge was primarily driven by the revaluation gain of P21,933 million recognized from the dilution of equity interests in SPPC, EERI and IPIEC following the completion of the Chromite Transaction, partly offset by the increase in foreign exchange losses recognized mainly on the revaluation of the Group's US Dollar-denominated net monetary liabilities due to the continued depreciation of the Philippine Peso against the US Dollar in 2025.

Income Tax Expense
Provision for income tax amounted to P4,228 million for the first three quarters of 2025, lower by 20% from the same period in 2024 due to the recognition of higher deferred tax benefits on unrealized foreign exchange losses for the first three quarters of 2025.

Net Income
Consequently, the consolidated net income of the Group for the first three quarters of 2025 increased to P42,399 million or by 215%, from P13,465 million reported for the same period in 2024. Excluding the aforesaid gain of P21,933 million, the net income still rose significantly by 52% to P20,466 million.

The following are the highlights of the performance of the individual operating business segments:

1. **POWER GENERATION**

a. **SPI, owner of Sual Power Plant**

For the first three quarters of 2025, net generation of 3,357 GWh, at 43% net capacity factor rate, was lower by 30% than the same period in 2024 mainly due to the plant's longer outages.

Revenues of P27,724 million fell by 34%, from P42,267 million in 2024. The decrease was mainly due to lower spot sales volume and the decline in bilateral offtake volume as contracts with certain DUs expired in December 2024 but was partly replaced by new contracts that took effect only in February 2025 and new contracts that are still awaiting regulatory approvals. Moreover, lower average realization price resulting from: (i) lower fuel tariff as global coal prices fell from an average of US$134/MT in the first three quarters of 2024 to US$104/MT for the same period in 2025 and (ii) 34% drop in the average spot selling price from P6.61 per kilowatt hours (kWh) in 2024 to P4.36/kWh in 2025, contributed to the decline in revenues.

Consequently, operating income for the three quarters of 2025 registered at P5,201 million, down from the P9,381 million posted in 2024.

b. **SPPC, owner of Ilijan Power Plant**

Upon completion of the Chromite Transaction on January 27, 2025, San Miguel Global Power's equity interest in SPPC was diluted from 100% to 33% resulting to a loss of control over SPPC. Accordingly, the assets and liabilities of SPPC were deconsolidated from the books of San Miguel Global Power and the recognition of share in SPPC's net earnings commenced following the deconsolidation.

For the month of January 2025, the Ilijan Power Plant contributed 424 GWh (at 47% net capacity factor rate), P4,346 million and P1,254 million to the Group's net generation, revenues and operating income, respectively. After the deconsolidation, share in net earnings recognized from the operations of SPPC amounted to P2,010 million for the first three quarters of 2025.

c. **LPI, owner of Limay Greenfield Power Plant**

For the first three quarters of 2025, net generation of the Limay Greenfield Power Plant of 2,353 GWh, at 67% net capacity factor rate, was lower by 19% than the 2,920 GWh registered for the same period in 2024 due to the plant's longer outages. Of the total net generation, 1,037 GWh was dispatched to LPI's power generation customers while the remainder was allocated to its RES business serving its contestable customers.

On the other hand, total offtake volume has gone up to 1,849 GWh, a 5% increase from same period in 2024 attributable to higher spot sales volume. Likewise, revenues increased from P9,591 million in 2024 to P9,608 million in 2025.

Operating income of P1,678 million for the first three quarters of 2025 was 33% lower than the P2,489 million posted in the same period in 2024 on account of higher costs to supply.

d. **MPI, owner of Davao Greenfield Power Plant**

For the first three quarters of 2025, a total of 1,180 GWh was generated by the Davao Greenfield Power Plant, at a net capacity factor rate of 68%. This was lower by 6% compared to the same period in 2024, owing mainly to lower bilateral nominations. Consequently, total offtake volume decreased by 5% to 1,210 GWh.

Likewise, revenues at P7,078 million dropped by 7% from the same period in 2024 driven by lower offtake volume and reduced average realization price resulting from lower fuel tariff following the decline in global coal prices. As a result, operating income dropped by 18% to P1,805 million.

e. **MPCL, owner of Masinloc Power Plant**

The Masinloc Power Plant's operating Units 1, 2, and 3 contributed a total net generation of 4,233 GWh for the first three quarters of 2025 with 4,002 GWh or 95% supplied to power generation customers while the rest was discharged to contestable customers and for its BESS requirements. This was 6% higher, compared to the 3,770 GWh generated from the same period in 2024.

Total offtake volume of 5,309 GWh went up from the same period in 2024 resulting primarily from higher customer nominations. Revenues grew by 13% to P27,076 million and operating income increased by 46% to P5,468 million for the first three quarters of 2025 compared to the same period in 2024. The growth was driven by higher offtake volume and improved average realization prices under new and renewed bilateral contracts.

f. **MPGC, owner of Mariveles Greenfield Power Plant**

For the first three quarters of 2025, net generation of the Mariveles Greenfield Power Plant is registered at 2,777 GWh, at 79% net capacity factor rate. This represents a 27% increase compared to the same period in 2024 primarily driven by higher plant dispatch with Units 1 to 4 declared operational on March 28, 2024, September 26, 2024, October 26, 2024, and January 9, 2025, respectively. Total offtake volume of 2,798 GWh likewise increased by 27% as a result of higher net generation supplied to the spot market, affiliate generators, and Meralco pursuant to the commencement of the 300 MW PSA on June 2, 2025.

As a result, revenues surged to P14,668 million, a 93% increase from the P7,589 million posted in the same period in 2024. Likewise, operating income significantly improved at P3,730 million, up by 329% from the P869 million for the first three quarters of 2024.

g. **EERI, owner of the new BCCPP**

Testing and commissioning activities of EERI's Units 1 and 2 started in November 2024 while Unit 3 started in January 2025. Subsequently, Units 1 and 2 were declared operational starting on December 26, 2024 and January 7, 2025, respectively.

As a result of the completion of the Chromite Transaction on January 27, 2025, San Miguel Global Power's equity interest in EERI was diluted from 100% to 33% thereby resulting to a loss of control over EERI. Accordingly, the assets and liabilities of EERI were deconsolidated from the books of San Miguel Global Power and the recognition of share in EERI's net earnings commenced following the deconsolidation.

For the month of January 2025, the BCCPP of EERI contributed 364 GWh (at 41% net capacity factor rate), P3,058 million and P731 million to the Group's net generation, revenues and operating income, respectively. After the deconsolidation, share in net earnings recognized from the operations of EERI amounted to P3,851 million for the first three quarters of 2025.

h. **SRHI, IPPA of San Roque Hydroelectric Power Plant**

The San Roque Hydroelectric Power Plant's net generation of 929 GWh for the first three quarters of 2025, at 41% net capacity factor rate, increased by 125% due to longer operating hours attributable mainly to higher water reservoir level. Consequently, total offtake volume of 1,373 GWh increased by 19% compared to the same period in 2024 owing to improved spot sales volume.

Likewise, revenues increased by 9% to P6,566 million, compared to P6,047 million for the same period in 2024. Additionally, operating income rose significantly to P2,036 million, representing a 199% increase from the same period in 2024, on account of higher offtake volume and lower costs to supply.

2. **RETAIL AND OTHER POWER-RELATED SERVICES**

a. **LPI - RES**

For the first three quarters of 2025, total offtake volume registered at 1,918 GWh, lower by 24% compared to the same period in 2024 at 2,537 GWh due mainly to lower customer nominations. Likewise, revenues decreased by 21% from P15,293 million in 2024 to P12,028 million for the first three quarters of 2025 due to lower offtake volume.

Consequently, operating income for the first three quarters was registered at P1,576 million, 16% lower compared to the P1,886 million posted for the same period in 2024.

b. **MPCL - RES and BESS**

For the first three quarters of 2025, revenues (consisting of revenues from RES contracts and revenues earned from ancillary services contracts and reserves market sales generated from the 30 MWh Masinloc BESS) and operating income amounted to P8,142 million and P1,718 million, an increase of 73% and 120%, respectively, compared to the same period in 2024. The growth was primarily driven by a significant rise in offtake volume supplied under new contracts, as well as the start of operations of the 20 MWh Masinloc BESS Phase II for the first three quarters of 2025.

c. **SMGP Kabankalan, owner of Kabankalan BESS Phase I and II**

Revenues and operating income increased by 67% and 99% to P981 million and P748 million, respectively, for the first three quarters of 2025 compared to the same period in 2024 due mainly to the commencement of operations of the 10 MWh Kabankalan BESS Phase II that was offered to the reserves market for the first three quarters of 2025.

d. **SMGP BESS, owner of 13 BESS Facilities with combined installed capacity of 440 MWh**

For the first three quarters of 2025, SMGP BESS generated revenues of P11,565 million, reflecting a 91% increase compared to the same period in 2024. This growth was primarily driven by the full nine-month operations of the 3 BESS facilities, with a combined capacity of 110 MWh, which commenced operations in March 2024 and the addition of 3 new BESS facilities with an aggregate capacity of 110MWh that began operations in the first half of 2025. Operating income also rose significantly to P8,814 million, up by 121% from P3,991 million in the same period in 2024.

The Group's consolidated total assets as at September 30, 2026, amounted to P1,036,615 million, higher by 16% or P144,994 million than the December 31, 2025 balance of P891,621 million. The increase was attributable to the following factors:

a. Increase in investments and advances - net by P59,269 million was mainly attributable to the (i) additional deposits to associates for renewable power projects; (ii) additional capital infusions to certain Chromite entities pursuant to relevant agreements; and (iii) recognition of share in net earnings of Chromite entities during the period. This was partly offset by the loss recognized from the revaluation of investments in Meralco shares during the period.

b. Increase in cash and cash equivalents by P53,243 million was mainly attributable to the (i) P50,000 million term loan drawn by MPCL in July 2026; (ii) issuance of P30,000 million Series N-O-P fixed-rate Peso Bonds in April 2026; (iii) and proceeds from term loans availed by San Miguel Global Power including: (a) P20,000 million in March 2026 and (b) US$500 million in April and June 2026; (iv) net proceeds from the issuances of capital securities including: (a) RPS by GP Renewable, in March and May 2026 (P36,300 million), and (b) US$500 million RPCS by SGLPC in May 2026; (v) net cash generated from operations; (vi) proceeds from sale of machinery and equipment parts by MPGC and MPI; and (vii) cash dividends received from Meralco, Chromite entities and other affiliates. The increase was partially offset by (i) capital expenditures mainly for the Masinloc Units 4 and 5, solar, hydro and BESS projects and acquisition of investment properties; (ii) additional deposits for renewable power-related projects; (iii) San Miguel Global Power's full settlement of its US$300 million term loan in March 2026, redemption of its Series J and Series C Bonds in April and July 2026, respectively, and principal repayments of LPI, SMGP BESS, MPGC, MPI, MPCL and San Miguel Global Power during the period; (iv) distributions to holders of capital securities; and (v) payments of lease liability to PSALM by SRHI.

c. Increase in other noncurrent assets by P24,745 million was mainly attributable to acquisitions of various investment properties, additional advances to suppliers and contractors for ongoing construction projects, and higher restricted cash for debt servicing requirements of the Group.

d. Increase in property, plant and equipment by P17,677 million was mainly attributable to additional capital expenditures for the Group's ongoing projects, partly offset by depreciation and amortization during the period, and sale of machinery and equipment parts by MPGC and MPI.

e. Increase in prepaid expenses and other current assets by P8,551 million was mainly attributable to additional restricted cash set aside for debt servicing requirements by SMGP BESS and MPGC, partly offset by the application of input value-added tax and prepaid income taxes to outstanding tax payables of the Group.

f. Increase in inventories by P4,660 million was mainly attributable to (i) higher coal purchases during the period, coupled with higher average cost of coal; and (ii) additional spare parts and fuel inventory of Sual Power Plant for its upcoming preventive maintenance activities.

g. Increase in deferred income tax assets by P410 million was mainly attributable to temporary differences arising from unrealized forex losses recognized on US Dollar-denominated borrowings.

h. Decrease in trade and other receivables - net by P21,558 million was mainly due to the collections of receivables from recoveries of power supply costs, from spot/bilateral sales, and from installment sale of investment properties.

The Group's consolidated total liabilities as at September 30, 2026, amounted to P534,046 million, 13% or P63,159 million higher than the December 31, 2025 balance of P470,887 million. The major items accounting for the increase are as follows:

a. Increase in long-term debt - net of debt issue costs (including current and noncurrent portions) by P96,087 million was attributable to the following: (i) P50,000 million term loan availed by MPCL in July 2026; (ii) P20,000 million and US$500 million term loans availed by San Miguel Global Power in March, April and June 2026; (iii) issuance of P30,000 million fixed-rate Peso bonds in April 2026; (iv) foreign exchange loss recognized on US Dollar-denominated loans; and (v) amortization of debt issue costs. The increase was partly offset by the following: (i) redemption upon maturity of Series J and Series C Bonds by San Miguel Global Power in April 2026 and July 2026, respectively; and (ii) settlements of maturing long-term loans of LPI, SMGP BESS, MPGC, MPI, MPCL and San Miguel Global Power during the period.

b. Increase in income tax payable by P120 million was mainly attributable to additional payable arising from income tax due recognized for the third quarter of 2026.

c. Decrease in accounts payable and accrued expenses by P28,626 million was mainly due to the Group's settlements of trade payables and payments to suppliers and contractors by MPCL. The decrease was partly offset by additional payables for coal shipments and for the Group's ongoing construction projects.

d. Decrease in lease liabilities (including current and noncurrent portions) by P4,725 million was mainly on account of lease payments to PSALM by SRHI, pursuant to its IPPA Agreement.

e. Decrease in other noncurrent liabilities by P212 million was mainly due to retirement benefits contributions paid, partly offset by additional customers' deposits during the period.

The Group's consolidated total equity as at September 30, 2026, amounted to P502,569 million, higher by 19% or P81,835 million than the December 31, 2025 balance of P420,734 million. The increase is accounted for as follows:

a. Increase in non-controlling interests by P66,674 million was mainly attributable to the issuances of: (i) RPS by GP Renewable to SPPC and EERI in March and May 2026, respectively; and (ii) US$500 million RPCS by SGLPC in May 2026.

b. Increase in retained earnings by P22,867 million was mainly attributable to the net income for the first three quarters of 2026, partly offset by the distributions to perpetual capital security holders.

c. Increase in SPCS by P7,858 million was attributable to the issuances of: (i) US$300 million SPCS in January 2026, the proceeds of which were used for the redemption of the remaining SPCS issued in January 2020; and (ii) US$430 million SPCS in June 2026, which were partly applied for exchange and tender offers of the remaining SPCS issued in June and September 2021.

d. Decrease in equity reserves by P15,564 million was mainly attributable to the difference between the price paid and net carrying value of SPCS redeemed, exchanged and tendered in January and June 2026, respectively, coupled by the downward fair market valuation of Meralco shares during the period.

2025 vs. 2024

The Group's consolidated total assets as at September 30, 2025, amounted to P887,215 million, higher by 1% or P5,342 million than December 31, 2024 balance of P881,873 million. The increase was attributable to the following factors:

a. Increase in investment and advances by P87,556 million was mainly attributable to the: (i) recognition at fair value of the 33% investments retained in SPPC, EERI, IPIEC; (ii) acquisition of 33% equity interest in Linseed Field Corp. (LFC); (iii) recognition of share in net earnings of the said entities from February to September 2025; and (iv) acquisition of Meralco shares and its subsequent revaluation.

b. Increase in cash and cash equivalents by P36,150 million was due mainly to the following: (i) net proceeds from the redemption by the deconsolidated entities of its RPS issued to San Miguel Global Power; (ii) proceeds from San Miguel Corporation's (SMC) capital infusion in San Miguel Global Power; (iii) proceeds from various Peso and US Dollar-denominated long-term loans drawn by San Miguel Global Power and by MPGC; (iv) cash generated from operations; (v) proceeds from various short-term loans availed by SPI and by San Miguel Global Power; (vi) net proceeds from various issuances of SPCS in 2025; and (vii) cash dividends from Meralco. These were partly offset by the: (i) redemptions of various perpetual capital securities in April and May 2025; (ii) capital expenditures for the Group's ongoing projects; (iii) distributions paid to the holders of perpetual capital securities; (iv) payments of maturing term loans of the Group and redemption of Series K Bonds by San Miguel Global Power; (v) payments for acquisitions of equity interests in LFC and the Meralco shares; and (vi) lease payments of SPI and SRHI to PSALM.

c. Decrease in property, plant and equipment by P88,120 million as a result of the deconsolidation of SPPC and EERI's property, plant and equipment, partly offset by additional capital expenditures for the Group's ongoing projects.

d. Decrease in prepaid expenses and other current assets by P13,893 million was mainly attributable to the deconsolidation of SPPC and EERI's prepaid taxes, input value-added tax and advance payments for liquefied natural gas (LNG) procurements. This was partially offset by additional restricted cash set aside for debt servicing requirements of the Group.

e. Decrease in trade and other receivables by P6,979 million was mainly attributable to the deconsolidation of SPPC and EERI's receivables, partly offset by higher trade receivables of MPGC from revenues generated by its 4 units and of SMGP BESS and SMGP Kabankalan from ancillary and reserves market revenues for the first three quarters of 2025.

f. Decrease in right-of-use assets by P3,602 million was mainly attributable to amortizations in 2025 and reclassification to investment property account of certain land that are subleased for the Group's solar projects.

g. Decrease in inventories by P2,597 million was mainly attributable to the deconsolidation of SPPC and EERI's LNG and spare parts inventories and lower inventory levels of fuel and spare parts.

The Group's consolidated total liabilities as at September 30, 2025, amounted to P460,568 million, 12% or P62,280 million lower than the December 31, 2024 balance of P522,848 million. The major items accounting for the decrease are as follows:

a. Decrease in accounts payable and accrued expenses by P43,823 million was mainly attributable to the deconsolidation of SPPC and EERI, payments made to suppliers and contractors and partly offset by additional payables to contractors relating to the Group's ongoing construction projects.

b. Decrease in loans payable by P12,350 million was due to settlements by San Miguel Global Power and MPGC in 2025 and the deconsolidation of SPPC's P5,000 million short-term loan. This was partly offset by various short-term loans drawn by SPI and San Miguel Global Power in 2025.

c. Decrease in lease liabilities (including current and noncurrent portions) by P8,937 million was mainly on account of lease payments to PSALM by SPI, pursuant to its land lease agreement executed in October 2024, and by SRHI, pursuant to its IPPA Agreement.

d. Decrease in deferred income tax liabilities by P6,624 million was mainly attributable to the deconsolidation of SPPC, partly offset by additional deferred income tax expense recognized on temporary differences relating to lease liabilities in 2025.

e. Increase in long-term debt-net of debt issue costs (including current and noncurrent portions) by P9,179 million was attributable to the following: (i) additional loan drawn in March 2025 by MPGC from its credit facility executed in December 2024; (ii) various US Dollar and Peso-denominated term loans availed by San Miguel Global Power in 2025; (iii) amortization of debt issue costs in 2025; (iv) unrealized foreign exchange loss recognized on the revaluation of US Dollar-denominated loans; partly offset by the (v) payments of maturing long-term loans of San Miguel Global Power, LPI, MPI, MPCL and SMGP BESS, and (vi) redemption of Series K Bonds in July 2025.

f. Increase in other non-current liabilities by P214 million was mainly due to additional customers' deposits and retirement benefits liabilities.

g. Increase in income tax payable by P61 million was mainly attributable to the additional payable arising from higher taxable income for the third quarter of 2025.

The Group's consolidated total equity as at September 30, 2025 amounted to P426,647 million, higher by 19% or P67,622 million than the December 31, 2024 balance of P359,025 million. The increase is accounted for as follows:

a. Increase in total paid-in capital by P58,775 million (consisting of capital stock and additional paid-in capital) was due to additional capital infusions from SMC in 2025.

b. Increase in retained earnings by P32,485 million was mainly attributable to the net income for the first three quarters of 2025, and net gain from redemptions by SPPC, EERI and IPIEC of their respective preferred shares issued to San Miguel Global Power. These were partly offset by the distributions to perpetual capital security holders.

c. Increase in SPCS by P17,771 million as a result of various issuances, net of exchange offers, in February, July, and August 2025, partly offset by redemption completed in May 2025.

d. Increase in equity reserves by P15,828 million was mainly attributable to the cumulative gain on fair valuation of investments in equity instruments (Meralco shares) and partly offset by the difference between the price paid and net carrying value of redeemed and exchanged perpetual capital securities in 2025.

e. Increase in non-controlling interests by P62 million pertains to the non-controlling interest's share in the net income of MPGC from the full nine-month operations of the Mariveles Greenfield Power Plant in 2025.

f. Decrease in RPCS by P57,299 million was due to San Miguel Global Power's redemption of RPCS issued to SMC in April 2025.

IV. CASH FLOW

SOURCES AND USES OF CASH

A brief summary of cash flow movements is shown below:

(in Millions)	**For the Periods Ended September 30**	
	2026	2025
Net cash flows provided by operating activities	**P50,018**	P26,573
Net cash flows provided by (used in) investing activities	**(129,514)**	33,462
Net cash flows provided by (used in) financing activities	**130,486**	(24,735)

Net cash flows provided by operating activities primarily consist of operating income before working capital changes, changes in current assets, certain current liabilities and others, including interest received and payments of interest, other financing charges and income taxes.

Net cash flows provided by (used in) investing activities are as follows:

(in Millions)	**For the Periods Ended September 30**	
	2026	2025
Proceeds from sale of machinery and equipment	**P6,075**	P -
Dividends received	**2,477**	501
Proceeds from installment sale of properties	**1,377**	461
Decrease (increase) in other noncurrent assets	**290**	(462)
Proceeds from redemption of preferred shares	**-**	78,717
Cash of deconsolidated subsidiaries	**-**	(5,678)
Additions to intangible assets	**(23)**	(13)
Return of proceeds from investment property sale	**(1,233)**	-
Additions to investment properties	**(8,446)**	-
Advances paid to suppliers and contractors	**(29,706)**	(2,366)
Additions to property, plant and equipment	**(41,096)**	(17,507)
Additions to investments and advances	**(59,229)**	(20,191)

Net cash flows provided by (used in) financing activities are as follows:

(in Millions)	**For the Periods Ended September 30**	
	2026	2025
Proceeds from:		
Long-term debts	**P128,002**	P33,086
Short-term borrowings	**107,000**	111,000
Proceeds from issuances of:		
RPS of a subsidiary	**36,299**	-
RPCS of a subsidiary	**30,178**	-
SPCS, net of exchange and tender offers	**17,454**	21,897
Capital stock	**-**	58,776
Payments of:		
Share issuance costs	**(88)**	(8)
Lease liabilities	**(5,083)**	(8,351)
Long-term debts	**(38,944)**	(25,438)
Short-term borrowings	**(107,000)**	(118,412)
Distributions paid to holders of:		
RPCS	**(4,103)**	(20,043)
SPCS	**(15,368)**	(12,097)
Redemptions of:		
SPCS	**(17,861)**	(6,288)
RPCS	**-**	(58,857)

The effect of exchange rate changes on cash and cash equivalents amounted to P2,253 million and P850 million on September 30, 2026 and 2025, respectively.

V. KEY PERFORMANCE INDICATORS

The following are the major performance measures that the Group uses. Analyses are employed by comparisons and measurements based on the financial data of the current period against the same period of previous year. Please refer to Item II “Financial Performance” and Item III “Financial Position” for the discussion of certain Key Performance Indicators.

LIQUIDITY RATIO

$$\textbf{Current Ratio} = \frac{\textbf{Current Assets}}{\textbf{Current Liabilities}}$$

(in Millions Peso)	**September 30, 2026**	December 31, 2025
(A) Current Assets	**285,149**	240,253
(B) Current Liabilities	**168,438**	183,457
Current Ratio (A) / (B)	**1.69**	1.31

SOLVENCY RATIO

$$\text{Net Debt-to-Equity* Ratio} = \frac{\text{Net Debt}}{\text{Total Equity}}$$

Per relevant Loan Covenants of San Miguel Global Power

(in Millions Peso)	**September 30, 2026**	December 31, 2025
(A) Net Debt [(1)]	**188,778**	142,739
(B) Total Equity [(2)]	**466,010**	401,744
Net Debt-to-Equity Ratio (A) / (B)	**0.41**	0.36

**All items are net of amounts attributable to ring-fenced subsidiaries*

(1) Consolidated net total debt plus total PSALM lease liabilities.
(2) Consolidated total equity.

$$\text{Asset-to-Equity Ratio} = \frac{\text{Total Assets}}{\text{Total Equity}}$$

	Conventional		***Adjusted*** [(3)]	
(in Millions Peso)	**September 30, 2026**	December 31, 2025	**September 30, 2026**	December 31, 2025
(A) Total Assets [(3)]	**1,036,615**	891,621	**1,009,931**	864,184
(B) Total Equity	**502,569**	420,734	**502,569**	420,734
Asset-to-Equity Ratio (A) / (B)	**2.06**	2.12	**2.01**	2.05

(3) Net carrying amount of the IPPA power plant, in relation to the IPPA Agreement of SRHI with PSALM, was omitted in total assets as this power plant asset was capitalized with corresponding lease liabilities. As at September 30, 2026 and December 31, 2025, the carrying amount of the IPPA power plant asset amounted to P26,684 million and P27,437 million, respectively.

PROFITABILITY RATIO

$$\text{Return on Equity} = \frac{\text{Net Income}}{\text{Total Equity}}$$

(in Millions Peso)	**September 30, 2026**	December 31, 2025
(A) Net Income [(4)]	**48,528**	48,306
(B) Total Equity	**502,569**	420,734
Return on Equity (A) / (B)	**9.7%**	11.5%

(4) Annualized for quarterly reporting.

Interest Coverage Ratio = **Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA)** / **Interest Expense**

Per relevant Loan Covenants of San Miguel Global Power

(in Millions Peso)	**September 30, 2026**	December 31, 2025
(A) EBITDA [(5)]	**54,372**	39,229
(B) Interest Expense [(6)]	**16,610**	15,232
Interest Coverage Ratio (A) / (B)	**3.27**	2.58

(5) Most recent four quarterly period consolidated EBITDA (gross of PSALM payments and excluding amounts attributable to ring-fenced subsidiaries).

(6) Most recent four quarterly period consolidated interest expense (excluding amounts attributable to ring-fenced subsidiaries).

OPERATING EFFICIENCY

Volume Growth (Decline) = **Current Period Offtake Volume** / **Prior Period Offtake Volume** **- 1**

	Periods Ended September 30	
(in GWh)	**2026**	2025
(A) Current Period Offtake Volume	**22,370**	22,090
(B) Prior Period Offtake Volume	**22,090**	27,043
Volume Growth (Decline) [(A / B) – 1]	**1.3%**	(18.3%)

Revenue Growth (Decline) = **Current Period Revenue** / **Prior Period Revenue** **- 1**

	Periods Ended September 30	
(in Millions Peso)	**2026**	2025
(A) Current Period Revenue	**149,077**	118,795
(B) Prior Period Revenue	**118,795**	153,592
Revenue Growth (Decline) [(A / B) – 1]	**25.5%**	(22.7%)

Operating Margin = **Income from Operations** / **Revenues**

	Periods Ended September 30	
(in Millions Peso)	**2026**	2025
(A) Income from Operations	**53,419**	34,834
(B) Revenues	**149,077**	118,795
Operating Margin (A) / (B)	**35.8%**	29.3%

VI. OTHER MATTERS

a. Commitments
The outstanding purchase commitments of the Group amounted to P69,500 million and P69,418 million as at September 30, 2026 and December 31, 2025, respectively.

The Group's material commitments for capital expenditure consist mainly of construction of power plants, mostly utilizing high efficiency low emission technologies, in line with the Group's expansion projects, and acquisition, upgrade or repair of plant and equipment needed for normal operations of the business. These will be funded by available cash and proceeds from short-term loans, long-term debt and issued capital securities.

b. There were no known trends, demands, commitments, events or uncertainties that will have a material impact on the Group's liquidity. The Group does not anticipate within the next 12 months any cash flow or liquidity problems. The Group was not in default or breach of any note, loan, lease or other indebtedness or financing arrangement requiring payments. There were no significant amounts of the Group's trade payables that have not been paid within the stated trade terms.

c. There were no known trends, events or uncertainties that have had or that are reasonably expected to have a favorable or unfavorable impact on net sales or revenues or income from continuing operations.

d. There were no known events that will trigger direct or contingent financial obligation that is material to the Group, including any default or acceleration of an obligation and there were no changes in the contingent liabilities and contingent assets since the last annual reporting date. No material contingencies and any other events or transactions exist that are material to an understanding of the current interim period.

e. There are no significant elements of income or loss that did not arise from continuing operations.

f. The effects of seasonality or cyclicality on the interim operations of the Group's businesses are not material.

g. There were no material off-statements of financial position transactions, arrangements, obligations (including contingent obligations), and other relationship of the Group with unconsolidated entities or other persons created during the reporting period.
